third sector beyond traditional nonprofits centered on education health care and charity and into the realm of often smaller dynamic organizations that engage in collective entrepreneurship Throughout Gunn illustrates how organizations founded with little in the way of financial resources have made substantial contributions to economic development and general well being in the communities they serve and from which they arise After explaining why local development is a problem in such a wealthy and resource rich country as the United States Christopher Gunn profiles more than two dozen organizations ranging from child care cooperatives to retirement communities from co housing villages to financial institutions He also investigates public policy changes that could strengthen this alternative sector s contribution to economic development
