today is led by an elite group of older men nearly three quarters of whom are related to current or past general church

review Members are reassured by public relations spokesmen that all is well and that harmony prevails among these

as an insider within the Latter day Saint historical department D Michael Quinn presents a fuller view His extensive research
documents how the governing apostles seventies and presiding bishops are likely to be at loggerheads as much as united
These strong willed independent men like directors of a large corporation or supreme court justices lobby among their
colleagues forge alliances out maneuver opponents and broker compromises There is more clandestine political activities
investigative and punitive actions by church security forces personal loans from church coffers later written off as bad debts
and other privileged power vested activities Quinn considers the changing role and attitude of the leadership toward
visionary experiences the momentous events which have shaped quorum protocol and doctrine and day to day bureaucratic
intrigue from the time of Brigham Young to the dawn of the twenty first century The hierarchy seems at root well intentioned
and even at times aggressive in fulfilling its stated responsibility which is to expedite the Second Coming Where they have
become convinced that God has spoken they have set aside personal differences offered unqualified support and spoken with
a unified voice This potential for change when coupled with the tempering effect of competing viewpoints is something Quinn
finds encouraging about Mormonism But one should not assume that these men are infallible or work in anything
