All Else Confusion:

Trollope and Women Margaret Markwick, 1997-01-01 Trollope is usually seen as a faithful mirror of Victorian England both in providing intimate details of contemporary life and in endorsing the moral attitudes and certainties of the period His powers of empathy make his characters convincing and knowable in an astonishing way Yet the Victorians restricted women to the house and severely limited their rights and opportunities Trollope and Women examines the conundrum of how a great novelist could both accept the conventional values of the time and yet be able to see and sympathise with the impossible situations in which Victorian women often found themselves Margaret Markwick shows the individuality of Trollope's women even conventional Angel in the House heroines like Mary Lowther in *The Vicar of Bullhampton* can surprise us at times More tellingly he cannot help giving some of his less angelic characters such as the vivacious Lizzie Eustace in *The Eustace Diamonds* his unwilling admiration His range extends beyond simple romance to the realistic handling of marriages both happy and unhappy and to the treatment of bigamy and scandal He shows men and women getting on together as well as fighting bitterly Nor are Trollope's novels as devoid of sex as has often been thought

The Works of Alfred Lord Tennyson Alfred Tennyson, 1994 The Wordsworth Poetry Library comprises the works of the greatest English speaking poets as well as many lesser known poets Each collection has a specially commissioned introduction

Nova anthologia Oxoniensis: translations into Greek and Latin verse Anthologia Oxoniensis, 1899

Proceedings of the Royal Society of London Royal Society (Great Britain), 1892

The Gendered Society Michael S. Kimmel, 2000 They say that we come from different planets men from Mars women from Venus that we have different brain chemistries and hormones and that we listen speak and even define our morals differently How is it then that men and women live together take the same classes in school eat the same food read the same books and receive grades according to the same criteria In *The Gendered Society* Michael S Kimmel examines our basic beliefs about gender arguing that men and women are more alike than we have ever imagined Kimmel begins his discussion by observing that all cultures share the notion that men and women are different and that the logical extension of this assumption is that gender differences cause the obvious inequalities between the sexes In fact he asserts that the reverse is true gender inequality causes the differences between men and women Gender is not simply a quality inherent in each individual it is deeply embedded in society's fundamental institutions the family school and the workplace The issues surrounding gender are complex and in order to clarify them the author has included a review of the existing literature in related disciplines such as biology anthropology psychology and sociology Finally with an eye towards the future Kimmel offers readers a glimpse at gender relations in the next millennium Well written well reasoned and authoritative *The Gendered Society* provides a thorough overview of the current thinking about gender while persuasively arguing that it is time to reevaluate what we thought we knew about men and women
