Award of the Fishery Commission Halifax Commission (1877), 1878 The Canadian Federalist Experiment Frederick Vaughan, 2003 In *The Canadian Federalist Experiment* Frederick Vaughan details how the fathers of Confederation defiantly determined to perpetuate monarchical government despite Enlightenment philosophy that insisted that republicanism was the only legitimate form of government embraced the Hobbesian principles of the English constitution and embedded them in the new Canadian constitution in 1867 leading to concentration of power in the office of the prime minister He then argues that Trudeau's 1982 Charter quietly undermined the monarchic character of the constitution by introducing republican principles of government The result has been old institutional structures at odds with the republican ambitions leaving Canada clinging to the wreckage of the old aristocratic order while attempting to provide a new order founded on republican equality Vaughan shows how at the time of Confederation Edward Freeman a Cambridge historian who convinced John A Macdonald to experiment with what no one had ever heard of before a monarchic federation and Jean Louis DeLolme a popular French authority on the English constitution helped forge a new federal constitution with a strong central government and a chief executive armed with the powers necessary to govern Vaughan examines how these principles were undermined by the judicial activism of the Judicial Committee of the Privy Council which paved the way for the significant expansion of judicial power under the Charter since 1982 *Doctor Ox's Experiment and Other Short Stories* Jules Verne, 2015-10-19 *Doctor Ox's Experiment and Other Short Stories* by Jules Verne Jules Verne pioneered the genre of science fiction He is best known for his novels *Journey to the Center of the Earth* 1864 *Twenty Thousand Leagues Under the Sea* 1870 and *Around the World in Eighty Days* 1873 Verne wrote about space air and underwater travel before navigable aircraft and practical submarines were invented and before any means of space travel had been devised He is the third most translated author of all time His prominent novels have been made into films Verne along with H G Wells is often referred to as the Father of Science Fiction And this is a nice collection with ten of his short stories **The Great Experiment** Mart Grams, 2012-09-22 A free market text on the emergence in America of a Great Experiment Stemming from Alexander Hamilton's statement in *Federalist* 1 and stated two centuries later by Ronald Reagan Freedom is never more than one generation away from extinction We didn't pass it to our children in the bloodstream It must be fought for protected and handed on for them to do the same or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free Hamilton wondered if men were capable of ruling themselves This text deals with that hope and duty and my attempts over the years to express to my students a spark to relight that fire the Framers and Founders felt when creating the greatest experiment in freedom the world has seen **Advances in Experimental Social Psychology**, 1986-02-12 *Advances in Experimental Social Psychology* **House Documents, Otherwise Publ. as Executive Documents** United States. Even church fathers Martin Luther and other Protestant leaders questioned its inclusion in the Bible. The book of Revelation is not meant to be a complex puzzle itching to be solved. Rather, it is a first-century document that needs to be understood in the context of the Greco-Roman world while paying close attention to the hundreds of allusions to Old Testament Scripture.
