Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity [Handbook of the International Political Economy of the Corporation](#) Andreas Nölke,Christian May,2018-09-28 Over the past few decades corporations have been neglected in studies of international political economy IPE Seeking to demystify them what they are how they behave and their goals and constraints this Handbook introduces the corporation as a unit of analysis for students of IPE Providing critical discussion of their global and domestic power and highlighting the ways in which corporations interact with each other and with their socio political environment this Handbook presents a thorough and up to date overview of the main debates around the role of corporations in the global political economy **Understanding Business Ethics** Peter A.
