People Get Ready! Christine Berry,Joe Guinan,2019-05-01
Jeremy Corbyn's Labour stands on the brink of power promising a fundamental re ordering of British politics But what in practice will this entail How can a radical government stand up to an establishment that is hostile to any significant redistribution of wealth and power People Get Ready dives into the nitty gritty of what's needed to bring about transformative change Unlike a decade ago the left's problem is no longer a shortage of big ideas Inside and outside the Labour Party an agenda for new forms of public and community ownership is taking shape Today the biggest danger facing the left is lack of preparedness the absence of strategies that can make these ideas a reality People Get Ready draws on previous attempts at radical change from the election of Labour at the end of the Second World War and the progressive early days of Mitterrand's presidency in France to Tony Benn's battles with Harold Wilson and Margaret Thatcher's icy insistence that there was no alternative to free markets These stories highlight the importance of knowing your allies and even more your enemies of being ready to deal with sabotage and resistance from the highest levels of being bold enough to transform the structures of government and of having a mass movement that can both support the leadership and hold it to its radical programme when the going gets tough Remarkably democratic socialism in Britain is closer to government than in

any other European country The responsibilities this brings for those supporting the Corbyn project are as great as the opportunities it presents But there isn't much time to get ready

Baker,2007-01-01 Essential reading for anyone truly interested in saving democracy from the predations of kleptocracy and plutocracy Charles Davidson The Journal of Democracy This book expands our understanding of the financial secrecy system dominating capitalism today and shows how we can create accountability to restore our democracy Over the last half century capitalism has created the means for trillions of dollars euros pounds and other stores of wealth to move invisibly beyond the control of central bankers law enforcement agents and international institutions With an entire financial secrecy system now dominating capitalist operations riches flow inexorably upward and accelerate economic inequality And rising inequality is directly imperiling

weakening obstructing and degrading democracy This book is not a screed against capitalism it is a call for capitalism to return to its roots reenergizing its synergies with democracy Raymond Baker writes Democratic capitalism is in my judgment the best system yet devised in political economy but dysfunctions within its capitalist component are undermining the two part system Baker explains the tax havens secrecy jurisdictions disguised corporations anonymous trusts fake foundations regulatory loopholes money laundering techniques and more that make up the financial secrecy system But he goes beyond the what to the why examining the motivations driving the system that generates and shelters trillions of dollars that could go toward spreading wealth generating public goods and protecting the environment Going deeper Baker illustrates how these realities further corrode the commonwealth with chapters devoted to the facilitating activities and impacts of banks corporations enabling lawyers and accountants governments and international institutions and concluding with the limiting role played in policy silos that are missing the bigger picture Finally he provides specific pragmatic measures to reset capitalism so that it once again contributes to shared prosperity and sustained democracy This is a magisterial treatment of an issue that is at the root of so many problems that plague our nation and the world today

The Domestic Dynamics Of China's Energy Diplomacy Chi Zhang, 2015-09-17 Since the beginning of the 21st century China's energy diplomacy has been expanding rapidly and the country is searching for energy resources worldwide This movement has not only improved China's energy security and international relations but also enabled the Chinese national oil companies NOCs to access new investment markets and implement development strategies The Chinese government and the NOCs need each other's support to realise their respective interests The interaction between the government and the NOCs will have a critical influence on China's energy diplomacy The Domestic Dynamics of China's Energy Diplomacy explores the long neglected domestic dynamics of China's energy diplomacy in particular the interaction of national and corporate interests It argues that the convergence of national and corporate interests is the key momentum of China's energy diplomacy It observes that the government NOC relationship has been evolving with China's economic and enterprise reform Finally it tests the empirical evidence of the domestic dynamics of China's energy diplomacy against the three mainstream international political economy theories showing their merits and shortcomings in explaining the phenomenon before providing an alternative conceptualisation of the movement
