Barciszewski, 2020-10-01 This book offers a comprehensive and detailed overview of various aspects of long non coding RNAs It discusses their emerging significance in molecular medicine ranging from human cancers to cardiovascular and metabolic diseases Transcriptomic studies have demonstrated that the majority of genomes found in complex organisms are expressed in highly dynamic and cell specific patterns producing huge numbers of intergenic antisense and intronic long non protein coding RNAs lncRNAs Thousands of lncRNAs have been identified and unlike mRNA they have no protein coding capacity A large repertoire of ncRNAs actively transcribed from the mammalian genome control diverse cellular processes both in terms of development and diseases through a variety of gene regulatory mechanisms lncRNAs have emerged as a new paradigm in epigenetic regulation of the genome Given its scope the book will be of particular interest to molecular chemical cell and developmental biologists as well as specialists in translational medicine involved in disease oriented research It also offers a valuable resource for in silico experts seeking a deeper understanding of lncRNA expression and function through computational analysis of the NGS data **The Stress Code** Richard Sutton, 2022-04-01 One of the greatest lessons Richard

has taught me is the immense power of positive habits in shaping realities His approach to stress management and resilience has completely transformed my life NATASHA SIDERIS Founder and CEO of the Tashas group Stress impacts all facets of our lives and has devastating effects on the global economy including reduced productivity and the burden it places on healthcare systems Decades of research show that chronic stress severely compromises our physical and mental health More recently it has been revealed that stress can destabilise our DNA and affect our genetic integrity This promotes many of the diseases that societies are currently grappling with and could potentially impact future generations Yet stress has two faces ongoing stress is one of the biggest challenges faced globally but short intervals of stress can actually offer tremendous potential to grow break personal barriers and excel Turning the traditional stress paradigm on its head The Stress Code does not advocate stress avoidance but rather aims to create an adaptable strategy to better manage stress Supported by extensive scientific research the book offers readers tools and skills to help buffer the adverse effects of chronic stress enhance functionality and health and help us to thrive in situations of adversity **BESTSELLER NOW IN PAPERBACK** *How Nursing has Changed with Technology, An Issue of Nursing* Maria Overstreet, 2015-06-14 How has technology changed the art and science of nursing practice Many facets of nursing practice have stayed constant over the years such as the way we advocate for our patients and the art of caring for our patients However nursing practice has evolved over the years especially in the bedside delivery of state of the art nursing care Technology at the bedside has forced nurse educators to change the ways in which we always have taught nursing students Technology has also begun to change the methods used in the actual bedside nursing care In this issue you will hear from some of the nursing experts in areas of nursing care that has changed in either the delivery of care or method of assessing care of the patient Nursing experts will describe some of the historical changes and intrigue you in the changes expected to come to the bedside Why is this issue important First we gain insight from a review of where we have been and nurses tend to reminisce on our past as well as romance our historical roots Second technology is ever changing and it is good practice to keep abreast of what is happening in other areas of nursing so that we can apply others successes in our own specific areas of nursing Third informatics in nursing is a growing field and nursing must embrace technology and learn to adapt various methods of delivery so that we can appropriately care for and advocate for our patients With the changes in our national healthcare system we must encourage nurses to try out new methods of delivery as well as encourage their ideas of how nursing can change The articles in this issue reflect these changes **Adjustment and Growth, with eBook Access Code** Spencer A. Rathus, Jeffrey S. Nevid, 2025-03-18 Brings theory and research together to help students adapt to sources of stress in their everyday and academic lives Adjustment and Growth Psychology and the Challenges of Life reveals the many ways that psychology relates to our lives while illustrating how psychological concepts and principles can help us adapt to the real world issues we face With a lively and conversational writing style authors Spencer Rathus and Jeffrey Nevid show us how to apply psychology to confront a variety of life

challenges such as managing time developing self identity building and maintaining relationships adopting healthier lifestyles coping with stress strengthening financial responsibility and dealing with emotional problems and psychological disorders Each easy to follow chapter begins with Did You Know That a series of engaging and thought provoking questions that pique the reader s interest before they dive into the chapter The modular format of the textbook helps students organize their study time by presenting information in manageable units and providing brief Review Questions at the end of each section to enable self evaluating mastery of learning objectives Now in its fifteenth edition this market leading textbook is fully updated to meet the needs and concerns of the next generation of students Expanded chapters address psychology in the digital age social media sexuality and gender stress and the immune system and the current opioid crisis An entirely new chapter covers adapting to contemporary sources of stress such as social and political tensions public health in light of the COVID 19 crisis gun violence and mass shootings climate change the treatment of immigrant and migrant families *Ethics of Innovation in Neurosurgery* Marike L.
