2014 Economies Paper 1 Final Exam:

Banking's Final Exam Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In Banking s Final Exam one of the world s leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water Italian Fiscal Policy Review. 2015 Sergio Ginebri, 2017-05-01 Il volume esamina e valuta la politica di bilancio italiana realizzata nell'anno 2015 di cui vengono presentati gli impatti macroeconomici e distributivi Si sostiene che da una parte le politiche di consolidamento fiscale mettono a rischio la crescita già bassa del Pil e finiscono per ritardare la riduzione del rapporto tra debito e Pil d'altra parte che i provvedimenti adottati non hanno ridotto la disuguaglianza nella distribuzione del reddito che in Italia una delle più alte in Europa Oltre a ciò vengono approfondite due tematiche salienti per la politica di bilancio in primo luogo la relazione esistente tra struttura del prelievo fiscale crescita occupazione Viene mostrato che a parità di gettito un aumento della progressività del prelievo incrementa l'occupazione e che un trasferimento del prelievo dal reddito al consumo aumenta la crescita e l'occupazione Il secondo argomento di approfondimento riguarda la misurazione del Pil potenziale che alla base delle regole fiscali europee Due contributi mostrano la scarsa robustezza o l'inadeguatezza delle metodologie di calcolo del potenziale adottate dalla Commissione europea Economic Outlook for Southeast Asia, China and India 2016 Enhancing Regional Ties OECD, 2016-01-22 The annual Economic Outlook for Southeast Asia China and India examines Asia's regional economic growth development and regional integration process **Skills Formation for Economic Growth** David Lim, 2025-03-31 This book explores the vocational education programmes of Hong Kong programmes that are repeatedly noted for their excellence The book traces the founding and development of the Vocational Training Council of Hong Kong which was set up in 1982 to offer sub degree programmes in vocational and professional education and training It shows how it transformed itself from an institution seen by industry government and the public alike as not meeting the needs of Hong Kong to one that has spearheaded the development of this form of education in Hong Kong including offering degree programmes in these areas through its Technological and Higher Education Institute Written by a leading scholar of vocational education with extensive experience of devising and implementing vocational education programmes it offers this as a valuable resource to students and scholars of education particularly in an Asian context as well as of vocational and
