chapters This book will be of interest to those using survey methodology questionnaires and graduate courses incorporating survey design across the social and behavioral sciences including psychology communication studies nursing and healthcare research sociology anthropology and education Children and Companion Animals: Psychosocial, Medical, and Neurobiological Implications Andrea M. Beetz, Lynette A. Hart, Brinda I. Jegatheesan, Naoko Koda, 2018-08-16 Children and companion animals seem to have a natural affinity towards each other Most children desire a relationship with their own companion animals or at least demonstrate an interest to interact with animals in general Living with companion animals or interacting with animals may have psychosocial neurobiological or medically relevant effects on typically developing children and juveniles as well as those with diverse and special needs In this eBook we present several articles addressing the relationships between children juveniles and animals in different countries including Austria Germany Jamaica Japan the United Kingdom and the United States Three articles discuss approaches in animal assisted education including animal keeping and animal assisted interventions in schools and an experimental study investigating immediate effects of dogs on reading competence and accompanying stress reactions with cortisol and behavior Other articles address topics involving children and their companion animals including dog walking by children and juveniles risks of dog bites by the family dog selection of pet dogs for families with a child with autism spectrum disorder ASD and the relationships that children with ASD have with their family cats The interactions between children juveniles and animals addressed in this eBook provide new insights into some scarcely investigated themes and underline the significance of animals in children s lives **Epilepsy Surgery and Intrinsic Brain Tumor Surgery** Konstantinos Fountas, Eftychia Z. Kapsalaki, 2018-10-03 This book provides a comprehensive and practical guide for the safe and efficient management of patients with intrinsic brain tumors and medically intractable epilepsy It presents in an easily understandable way the preoperative evaluation of these patients starting from the clinical interpretation of conventional anatomical MR imaging and analyses the clinical significance of newer MR based imaging techniques such as diffusion and perfusion imaging It demonstrates with clarity the role of MR spectroscopy and fractional anisotropy and diffusion tensor imaging in the preoperative assessment of these patients and how this data can be incorporated into the surgical planning This book is aimed at neurosurgeons neuroradiologists neurologists and epileptologists and may also be of interest to neuropsychologists neurophysiologists radiation oncologists and medical physicists **Future of STEM education: Multiple perspectives from researchers** Subramaniam Ramanathan, Ida Ah Chee Mok, 2023-03-28 **Resources in Education** , 1998 **Cost Effectiveness Modelling for Health Technology Assessment** Richard Edlin, Christopher McCabe, Claire Hulme, Peter Hall, Judy Wright, 2015-08-11 This book provides an introduction to decision analytic cost effectiveness modelling giving the theoretical and practical knowledge required to design and implement analyses that meet the methodological standards of health technology assessment organisations The book guides you through building a decision tree and Markov model and importantly shows how the

results of cost effectiveness analyses are interpreted Given the complex nature of cost effectiveness modelling and the often unfamiliar language that runs alongside it we wanted to make this book as accessible as possible whilst still providing a comprehensive in depth practical guide that reflects the state of the art that includes the most recent developments in cost effectiveness modelling Although the nature of cost effectiveness modelling means that some parts are inevitably quite technical across the 13 chapters we have broken down explanations of theory and methods into bite sized pieces that you can work through at your own pace we have provided explanations of terms and methods as we use them Importantly the exercises and online workbooks allow you to test your skills and understanding as you go along
