diplomacy and many other disciplines with relevance for concepts and practice of water resources management. It provides comprehensive but also critical reading material for all communities involved in the ongoing water discourses and debates. The book refers to case studies in the form of boxes, sections or as entire chapters. They illustrate success stories but also lessons to be remembered to avoid repeating the same mistakes. Based on consolidated state-of-the-art knowledge, it has been conceived and written to attract a multidisciplinary audience. The aim of this handbook is to facilitate understanding between the participants of the international water discourse and multi-level decision-making processes. Knowing more about water but also about concepts, methods and aspirations of different professional disciplinary communities and stakeholders professionalizes the debate and enhances the decision-making.
