

Grade 12 Life Orientation

CAT Preparation

Dear learner,

- ☺ This document you are holding in your hands is a guide to help you in preparation for your Life Orientation CAT examination.
- ☺ It contains study material, extra notes, supporting images as well as exam practice questions from 2014 to 2018.
- ☺ Ideally, this guide will be a supplement to what your educator does in class, and it can be used effectively as a self-study guide.
- ☺ From *Examination Guidelines for Life Orientation DBE/2014*

FORMAT OF THE EXTERNAL COMMON ASSESSMENT TASK (CAT)

This question paper is divided into three sections:

- SECTIONS A and B are **COMPULSORY**.
- SECTION A consists of multiple-choice questions and questions requiring short responses.
- SECTION B consists of two 15-mark questions to which learners must provide direct responses.
- SECTION C consists of three 15-mark questions of which learners must answer TWO questions.

The outline below will be followed when setting Life Orientation question papers (CAPS).

SECTION A: 20 MARKS	SECTION B: 30 MARKS	SECTION C: 30 MARKS
• All questions are compulsory. • A source or case study may be used to contextualise some of the questions. • The questions have to be a combination of two or more types of questions ranging from what, why, list, describe, explain, multiple choice and true or false with a justification. • Test understanding and factual knowledge. • Responses should be short and direct and range from one word to a phrase or a full sentence(s) (in point form).	• All questions are compulsory. • Short open-ended, scenario-based, source-based and case study questions. • Questions should be knowledge-based, from information learners have acquired from the Life Orientation content. • Learners should display, present and apply knowledge and skills gained and display an understanding of real-life issues affecting the youth and society at large and give advice or possible solutions: demonstrate goal-setting and decision-making skills. • Learners should provide direct responses, full sentence in point form and structured with short paragraphs.	• Three 15-mark or four 10-mark questions will be set, of which learners will be expected to answer two or three respectively. • Questions will predominantly focus on the application of knowledge and skills. • Learners will solve problems, make decisions and give advice, ranging from a few direct responses to extended writing of descriptive paragraphs or short essays that state, evaluate or examine an issue. • Each question will focus on the specific topic or the integration of content. • A short text/diagram/data/graphs/cartoons can be provided as a stimulus.
NOTE: Information provided in the texts has to be current, up to date, age appropriate and learner-friendly. Each section will include questions at lower, middle and higher cognitive levels.

Mathematics (Education) in the Information Age Stacy A. Costa, Marcel Danesi, Dragana Martinovic, 2020-12-10 This book brings together ideas from experts in cognitive science mathematics and mathematics education to discuss these issues and to present research on how mathematics and its learning and teaching are evolving in the Information Age Given the ever broadening trends in Artificial Intelligence and the processing of information generally the aim is to assess their implications for how math is evolving and how math should now be taught to a generation that has been reared in the Information Age It will also look at the ever spreading assumption that human intelligence may not be unique an idea that dovetails with current philosophies of mind such as posthumanism and transhumanism The role of technology in human evolution has become critical in the contemporary world Therefore a subgoal of this book is to illuminate how humans now use their sophisticated technologies to chart cognitive and social progress Given the interdisciplinary nature of the chapters this will be of interest to all kinds of readers from mathematicians themselves working increasingly with computer scientists to cognitive scientists who carry out research on mathematics cognition and teachers of mathematics in a classroom

Towards a holistic approach to support learners at risk of interrupted development Macalane J. Malindi, Johnnie Hay, Thabo Makhalemele, 2024-02-23 The COVID 19 pandemic and the restrictions that came with it led to unprecedented disruptions in learner development and put them at risk of poor developmental outcomes It is thus important that the extent of the disruption on their development and the support needs of learners be investigated Researching the impact of the disruption should focus on holistic development In this book the authors use multiple research approaches and methods of gathering data in their respective fields to examine the impact of the disruption and determine the support needs of learners Data gathered through the different methods are processed and findings are presented The findings have implications for both practice and future research in the fields of inclusive education learner support educational psychology movement education Life Orientation and curriculum development
