Planurile Americii pentru hegemonia mondială Calistrat M. Atudorei, Aceasta este prima carte scrisă vreodată în România de către un român în limba română cu privire la istoria Statelor Unite atât intern cât și internațional. Lucrarea descrie destinul evolutiv în direcția superputerii hegemonice pe care l-a parcurs America pe năzulele noastre. Salutăm apariția ei. Autorul merită admirația noastră pentru efortul său în domeniul neobosit și erudit. Cu umbră și lumină mai ales cu umbră, cartea ne relatează mai degrabă într-o manieră critică o poveste a ascensiunii și declinului unuia dintre cele mai mari imperii care au existat până acum. Este cu siguranță cel mai proeminent imperiu cunoscut cel puțin din timpul vieții noastre. Dar asta cum ne dezvoltăm rezumatele statistice și documentele Congresului SUA dintre toate imperiile este și cel mai dependent de un lung și continuu intervenționism militar în fiecare col al lumii. La începutul studiului său autorul enumeră și examinează de aproape evoluția pe parcursul a aproape un secol a principiilor și doctrinelor încorporate în politica externă americană. Vedem o combinație între diplomație și război și aproape întotdeauna acesta din urmă a fost câștigător. Lucrarea evocă excepționalismul american. Doctrina Monroe diplomația lui Teddy Roosevelt de tipul Vorbește politicos dar ine o bună mare idiomul strategic Show the Flag arată și puterea diplomației de tip Gunboat politic agresiv implicit sau explicit doctrinele Truman și Reagan Teoria Domino ului Proiectul neoconservator pentru un Nou Secol American Doctrina lui Bush Jr a războaielor preventive etc. Apoi cităm surse americane de înaltă calificare autorul ochiază cititorul indicând că SUA nu mai este un stat cu adevărat democratic ci unul condus de o oligarhie de o elită care nu mai reprezintă voința poporului american. Atudorei evidențiază de asemenea cu argumente logice existența în Statele Unite a complexului militar industrial al Statului Subteran Deep State a cartelului financiar bancar etc. Lucrarea dezvoltă o Americă în zona amurgului condus prin planuri și entități secrete care controlează strict instituțiile globale războaiele și neocolonialismul din Orientul Mijlociu din America Latină și din Europa de Est. Autorul descrie cei 75 de ani de confruntare a Statelor Unite cu Uniunea Sovietică Federația Rusă punctând strategiile americane incisive și aproape nelimitat bugetate. Practic în cartea sa domnul Atudorei expune un lanț perpetuu de nelegiuiri istorice având America drept inițiator. America dependentă de militarism

An Unworthy Future Joseph Toomey, 2014-07-22 It is difficult to find an area of public policy more plagued by misunderstanding than energy policy Even worse every time the subject is raised we are obligated to get mired in pointless arguments about the weather This book helps set the record straight Not convinced Consider some of these inconvenient truths The cost of green energy climate remediation is anywhere from 10 to 1 000 times greater than the damage from the climate change it attempts to alleviate Germany the worlds leader in solar energy will spend more than 280

billion by 2030 on solar subsidies But all of that investment will only forestall 22nd century global warming by 37 hours Obamas carbon tax would cost Americans 1.2 trillion over just ten years But it would only reduce the midrange 3 degree modeled 22nd century global temperature increase by 0.038 degrees Celsius At their current emissions growth rate it will take China nine months to replace the entire U.S. emissions cut that Obama wants to achieve over seven years at a staggering cost in American jobs and lost economic growth The U.S. biofuel program imposes a cost on consumers 9,862 times greater than any climate benefit they or their distant progeny will ever derive This is not another skeptical global warming polemic but an economic evaluation of how and why green energy will fail The world has too many pressing needs For the money Obama squandered on just a single bankrupt crony solar company the U.S. could have prevented 300,000 childhood malaria deaths in poor countries A thoroughly researched heavily documented book by an expert in his field it will demonstrate in meticulous detail how wasteful and economically inefficient Obamas green energy dead end future will be compared to other worthy alternatives Its time to end the hysterical climate cynicism and get on humanitys side

The War on Sex David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J.
