Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders. *The Statesman's Yearbook 2014* B. Zimbabwe International Monetary Fund, African Dept., 2013-07-03 This staff report for Zimbabwe highlights the key macroeconomic challenges of taking steps to improve fiscal and external sustainability and increase financial sector stability. Zimbabwe has made good progress in restoring macroeconomic stability since the end of hyperinflation in 2009, but the economic rebound is waning and key challenges need to be tackled. Strong policies are needed to sustain the economic recovery, restore fiscal and external sustainability and increase financial stability. This would place the economy on a long-term sustained inclusive growth path. Implementation of indigenization and empowerment policies according to transparent rules with due respect to property rights remains essential to build investor confidence and attract needed foreign direct investment. Why Mugabe Won Stephen Chan, Julia Gallagher, 2017-06-09 This book examines the key events, personalities and wider socio-political context that led to Mugabe's victory in the 2013 Zimbabwean elections.

Neo-Liberal Urban Development in Post-Colonial Zimbabwe Terence Tapiwa Muzorewa, 2025-07-14 This book investigates the role of private land developers in the development of Ruwa Town in post-colonial Zimbabwe. Whereas other post-colonial established towns in the country emerged from direct public investment through the Growth Point policy, Ruwa emerged from a public-private partnership approach. The development of Ruwa Town is therefore a valuable example of a new post-colonial experience in urban planning and development, which is a clear departure from the colonial town planning which was premised on racial segregation. This book offers unique insights into the historical context, the role of private developers in the growth of the city, the impact of their involvement, bringing a comparative analysis with state-led development. It offers a valuable contribution to the field of urban studies, particularly within the context of urban development in post-colonial Zimbabwe and in Africa. Sports Law in Zimbabwe Tinashe Madebwe,Jimcall Pfumorodze,Emma Chitsove,Thabo Fiona Khumalo,2022-09-20

Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Zimbabwe deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Zimbabwe will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law
