the Aviation Industry that they are so passionate about into the future Working with Age J C Marquie, Paumes D
Cau-Bareille, S Volkoff, 2003-09-02 In the late 1990s age is a pressing concern on a scale previously unimaginable in the social
sciences and caring professions The inexorable development of the age pyramid and the quick pace of technological change
has brought work and age together as inter linked areas of study and intervention This text introduces current academic
thinking on work and age and describes ways in which working methods the organization of work and innovative
programmes such as tailored training can be introduced to reflect more accurately an intrinsic part of human life ageing The
book encompassing physiological psychological and social factors The object is to define clearly diverse aspects involved in
the passing of time ageing generational effects experience and other marks of time Their combined effects reveal different
signs of ageing on behaviour as well as on strategies to contend with professional requirements at different stages in life The
style of this text makes it accessible to a non specialist public but also opens avenues for those who wish to delve deeper into
the matter to discover the state of the art questions and issues being addressed in international work and age research
