What is wrong with the position that any given broadly defined occupation is either a profession or in not? - correct answer ✓✓ That approach leads to such conclusion as only doctors and not nurses are members of the medical profession and only officers and not enlisted are professionals of the POA. The characteristics which determine an occupation's place on the Profession Continuum is not prestige or salary, but rather the three criteria. The Warrior, Military Ethics and Contemporary Warfare Pauline M. Kaurin,2016-02-17

When it comes to thinking about war and warriors first there was Achilles and then the rest followed The choice of the term warrior is an important one for this discussion While there has been extensive discussion on what counts as military professionalism that is what makes a soldier sailor or other military personnel a professional the warrior archetype varied for the various roles and service branches still holds sway in the military self conception rooted as it is in the more existential notions of war honor and meaning In this volume Kaurin uses Achilles as a touch stone for discussing the warrior military ethics and the aspects of contemporary warfare that go by the name of asymmetrical war The title of the book cuts two ways Achilles as a warrior archetype to help us think through the moral implications and challenges posed by asymmetrical warfare but also as an archetype of our adversaries to help us think about asymmetric opponents
