The Heresy of Ham, Revised Edition Joel Edmund Anderson, 2024-11-07 One of the most controversial issues in our society today especially within Evangelicalism is that of the creation evolution debate Over the past few decades Fundamentalist apologists like Ken Ham of the young earth creationist organization Answers in Genesis have made a career convincing people that the age of the Earth and the historicity of Genesis 1:11 are not just bedrock fundamental tenets of the Christian faith but are also crucial fronts in the culture war In *The Heresy of Ham* Joel Edmund Anderson convincingly shows that not only are the YECist claims of Ken Ham unbiblical and unscientific but they have sowed the seeds of strife and division within countless Christian communities He should know he lost his job as a biblical worldview teacher at a small Evangelical school over the issue of YECism Anderson's ultimate message is simple regardless of your position regarding evolution or the interpretation of Genesis 1:11 they are not fundamental to the Christian faith and should not be used as battlefronts in the culture war If you have always had questions about the creation evolution debate the claims of YECism and the way Genesis 1:11 should be interpreted *The Heresy of Ham* is a tremendous resource for anyone struggling coming to grips with these issues

That's a lot of water did it really happen Chapter 9 answers this question by examining the biblical Flood in detail such as the 820 million cubic miles of water required to cover the highest mountains for which there is no credible source If you do not believe in Evolution the powerful and detailed facts in Evolution might cause you to pause and reconsider even if only for a moment

Huskinson, 2020-08-19 In this compelling and thoroughly researched book Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism so too there is broad diversity among creationists. His work on the Intelligent Design movement is superb and he prompts me to rethink my long-held conviction that Intelligent Design is merely the most recent evolutionary form of creationism. This is a very fine book. Randall Balmer, Author of *Evangelicalism in America* and writer/host of *In the Beginning: The Creationist Controversy*. Benjamin Huskinson's study of American creationism will be an eye opener for those who sit on the opposite side of the evolution debate. He shows that far from being a unified assault on Darwinism, the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community. Peter Bowler, Author of *Monkey Trials and Gorilla Sermons: Evolution and Christianity from Darwin to Intelligent Design*. A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory. Huskinson offers a smart analysis of religious anti-evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate. A must read for science communicators. Philippa Levine, Walter Prescott Webb Chair in History and Ideas, University of Texas at Austin, USA. This book explores the cultural history of anti-evolution efforts in the United States from 1960 to the present, refuting several popular narratives about creation science in evangelical America. Separating theological terms like creationism from cultural movements such as creation science and intelligent design in an evangelical marketplace of ideas, it contests assumptions that evangelical movements against evolution are homogeneous and it argues that intelligent design is not an offshoot of the creation science movement. It demonstrates that the rationale of creationist groups is relational as well as ideological, showing that the social function of American creationism, which is to establish the boundaries of orthodox religion, is key to understanding the competing strategies of creation science organisations. *The Lie* Ken Ham, 2012-10-15 Today Christians and those considering the

Christian faith increasingly doubt the Bible's reliability Why What changed Revised Expanded for this special 25th anniversary edition Ken Ham points out the looming precipice too many church leaders are rushing towards a denial of the full authority and accuracy of the Bible from its very first verse In addition Ken powerfully shows how the unproven unscientific philosophy of evolution is driving young people away from the Christian faith and provides solid biblical solutions to turn things around The Lie uncovers Why Genesis remains critically important in presenting the Gospel This slippery slope of reinterpreting Scripture and redefining biblical doctrine How the handling of the biblical account of creation impacts your understanding of all of Scripture and your worldview The collapsing structure of Christianity as Genesis is questioned compromised and dismissed The religion of evolution The authority of God's Word versus man's fallible word Genesis as the foundation for all biblical doctrine Evolutionary ideas are actually destructive to the foundational message of the Cross of Jesus Christ Evolution is used to justify social issues such as abortion communism drug abuse homosexual practices and worse The successful use of creation evangelism to present the whole gospel message These issues are of critical importance when you realize that today we have Christians questioning Genesis the age of the earth the reality of Hell Adam as a real person and Christ's own words about creation marriage and more One compromise just leads to another and it has to end if we want to leave a legacy of faith to future generations Churches individuals and Bible colleges are using this Christian apologetic resource to strengthen their faith families and sharing of the whole gospel of Jesus Christ **Pray the Gay Away** Bernadette Barton, 2014-08-22 2013 Finalist for the Lambda Literary Awards LGBT Studies category Barton argues that conventional Southern manners and religious institutions provide a foundation for homophobia in the Bible Belt In the Bible Belt it's common to see bumper stickers that claim One Man One Woman Marriage church billboards that command one to Get right with Jesus letters to the editor comparing gay marriage to marrying one's dog and nightly news about homophobic attacks from the Family Foundation While some areas of the United States have made tremendous progress in securing rights for gay people Bible Belt states lag behind Not only do most Bible Belt gays lack domestic partner benefits lesbians and gay men can still be fired from some places of employment in many regions of the Bible Belt for being a homosexual In Pray the Gay Away Bernadette Barton argues that conventions of small town life rules which govern Southern manners and the power wielded by Christian institutions serve as a foundation for both passive and active homophobia in the Bible Belt She explores how conservative Christian ideology reproduces homophobic attitudes and shares how Bible Belt gays negotiate these attitudes in their daily lives Drawing on the remarkable stories of Bible Belt gays Barton brings to the fore their thoughts experiences and hard won insights to explore the front lines of our national culture war over marriage family hate crimes and equal rights Pray the Gay Away illuminates their lives as both foot soldiers and casualties in the battle for gay rights

Thomism and the Problem of Animal Suffering B. Kyle Keltz, 2020-06-12 The problem of animal suffering is the atheistic argument that an all knowing all powerful and all good God would not use millions of years of animal suffering

disease and death to form a planet for human beings This argument has not received as much attention in the philosophical literature as other forms of the problem of evil yet it has been increasingly touted by atheists since Charles Darwin While several theists have attempted to provide answers to the problem they disagree with each other as to which answer is correct Also some of these theists have given in to the problem and believe it entails that God is limited in certain ways B Kyle Keltz seeks to provide a classical answer to the problem of animal suffering inspired by the medieval philosopher theologian Thomas Aquinas In doing so Keltz not only utilizes the wisdom of Aquinas but also contemporary insights into non human animal minds from contemporary philosophy and science Keltz provides a compelling neo Thomistic answer to the problem of animal suffering and explains why the classical God of theism would create a world that includes animal death *An Old Man Thinking for the First Time* James Kalm Fitzgerald,2024-05-22 A seed was dropped by a man that did not know he was sowing seeds A certain seed sprouted a philosophy plant which was noticed by a passerby The passerby a lost soul picked and consumed the plant which awakened a decade s old and long forgotten planned quest That quest was locked away in the mind of the lost soul in a closet of things once planned but long since forgotten In that closet on a bookshelf was a book the lost soul had once thought to read The Holy Bible Covered in scarlet webs this book now stood out as a quest that must be taken The lost soul removed the book from the forgotten things in the closet of his mind and moved it from the mind to his hands The Book was consumed The old man would start thinking differently This thinking it seemed to the old man would be useless unless this thinking might be shared No experience in writing but nevertheless compelled to go fishing for men with words *Is Evolution Compatible with Christianity?* Christopher Gieschen,2019-09-30 All of these statements are false Christians are science deniers when it comes to evolution Real science actually lines up more with evolution than creation as found in Genesis Fossils are evidence for evolution The Genesis account is fully compatible with evolution These questions need answers What exactly is the difference between evolution right and evolution wrong Is it possible to bend Genesis to fit evolution How can one defend belief in a six day creation from the onslaughts of the evolutionists How about any questions you have This book is a must for any Christian about to enter a public high school or university Accepting evolution as true is the basis for three of the ten reasons Christians give up saving faith It is time for you to arm yourself with the truth and stand your ground logically philosophically scientifically and most important biblically Ready Let s go
