Gallitano,2020-03-30 Diagnostic Competence of Mathematics Teachers Timo Leuders,Kathleen Philipp,Juliane Leuders,2017-11-09 This book examines the various areas of mathematics education and neighboring disciplines that have recently contributed to a better understanding of the still vague construct of diagnostic competence The work addresses the nature development and effect of diagnostic competence in mathematics instruction with a focus on the professional development of teachers Uzbekistan's Foreign Policy Bernardo Fazendeiro,2017-08-25 Uzbekistan s foreign policy from 1991 to 2016 starting from independence right up to the death of its first president Islam Karimov is one of the more distinctive approaches to international politics since the end of the Cold War This distinctiveness rests on the republic s gradual struggle for self reliance upon becoming independent Authorities in Uzbekistan especially its President were sceptics of the norms that came to prevail across regional and broader international politics This book addresses the making of Uzbekistan s general foreign policy and its corresponding effects outside Central Asia particularly at the highest level among state officials heads of state and ministers It shows how a particular set of promises slogans and attitudes became the pillars upon which Uzbekistan s international role was shaped a role which then affected Tashkent s twenty five year relations with Russia the United States Germany and Turkey The book argues that the Government of Uzbekistan sought to be recognised

as a self reliant power after independence but that the international norms of the post Cold War order coupled with the conflicting aims of the partners with whom it interacted hindered acknowledgement and contributed to a twenty year struggle for recognition Providing a thorough assessment of President Karimov s legacy in the foreign policy domain this book contributes to the developing field of role theory and recognition in International Relations It will also be of interest to academics in the fields of Central Asian and Eurasian politics and international relations English Patents of Inventions, Specifications , **Parliamentary Debates (Hansard)**.
