**Encyclopedia of World Trade: From Ancient Times to the Present** Cynthia Clark Northrup, Jerry H. Bentley, Alfred E. Eckes, Jr, Patrick Manning, Kenneth Pomeranz, Steven Topik, 2015-04-10 Written for high school or beginning undergraduate students this four volume reference valiantly attempts to provide a historical framework for the perhaps overly broad concept of world trade Entry topics were selected on trade organizations influential people commodities events that affected trade trade routes navigation religion communic      **Chinese Culture, Western Culture** Tai Ng, 2007-02 This book explores how complementary Chinese and Western cultures are how they should learn from each other to establish a dynamic balance and how institutions need constant redefinition and renewal in order to prosper By studying the history and development of thought and philosophy in these cultures it suggests lessons from our past that may shed light on current events and help us in handling future challenges The book presents answers to the following important questions Do Chinese people think differently from Westerners and if so how and why What are the key differences between Chinese and Western culture and why How did China become the most technologically advanced and sociologically sophisticated nation in the world until the seventeenth century and why did it ultimately decline What are the key characteristics of political institutions in historical China and Europe and how were they significant In this postmodern time and era of globalization what can we learn from Chinese culture and experiences As China rapidly industrializes what can it learn from the West without repeating some of the mistakes that Europeans and North Americans made in their periods of industrialization      **The World System** Barry Gills, Andre Gunder Frank, 2014-04-04 The historic long term economic interconnections of the world are now universally accepted The idea of the economic world system advanced by Immanuel Wallerstein has set the period of linkage in the early modern period but Andre Gunder Frank and Barry K Gills think that this date is much too late They argue an interconnection going back as much as 5000 years In The World System leading academics examine this issue in a debate contributed to by William H McNeill and Immanuel Wallerstein among others      Historicizing "tradition" in the Study of Religion Steven Engler, Gregory Price Grieve, 2005 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series      **The History of Science of Song, Liao, Jin and Xixia of Dynasty** Li Shi, The book
