Many people in the Church today have the idea that young earth creationism is a fairly recent invention popularized by fundamentalist Christians in the mid 20th century Is this view correct In fact scholar Terry Mortenson has done fascinating

original research on this subject in England and documents that several leading pre Darwin scholars and scientists known as scriptural geologists did not believe in long ages for the earth Mortenson sheds light on the following Before Darwin what did

the Church believe about the age of the earth Why did it believe this way What was the controversy that rocked the Church in 19th century England Who were the scriptural geologists What influences did the Church contend with even before Darwin
