Exploring Microeconomics, 6th Edition Robert L. Sexton, Colin C. Kovacs, Peter N. Fortura, 2023-01-20 Exploring Microeconomics Sixth Canadian Edition offers students a lively approach designed to take the intimidation out of economics. With its short self-contained learning units and its carefully chosen pedagogy, graphs, and photos, this text helps students master and retain the basic principles of economics. In addition, the current events focus and modular format of presenting information makes Exploring Microeconomics very student accessible and user friendly. Robert Sexton's section-by-section approach is designed to encourage economic literacy and helps students appreciate how economics impacts both business and daily life. Sexton helps students build a solid understanding of economic principles by engaging them from the outset and providing them with multiple points of practice.

Strategic Design and Innovative Thinking in Business Operations Hasan Dincer, Ümit Hacıoğlu, Serhat Yüksel, 2018-05-30 Recently, rapid technological advances have been influencing the global business operations strategies at companies of all sizes like never before. At the same time, there has been a shift in business cultures due to the rising prevalence of matrix organizations and innovative thinking. This book investigates the role of these factors in shaping the business operations of tomorrow. To address the topic comprehensively, the editors have gathered expert contributions exploring the following dimensions: the business and organizational environment, strategic design, innovativeness, and risk management. Discussing aspects ranging from customer selection to understanding regional, national, and supranational market dynamics, the contributions will help readers understand both the complexity of and opportunities presented by designing operations.

DESIGNING FUTURE STABILIZATION EFFORTS Stephan De Spiegeire, Peter Wijninga, Tim Sweijs, As the NATO combat mission in Afghanistan draws to an end the West is starting to take a hard look back at two decades of global stabilization efforts The lessons learned literature on these efforts is exploding One of the dominant themes in this literature is the need to embed the specifically military toolkit into a much more comprehensive integrated approach towards planning and executing In this forward looking report HCSS goes a step further by focusing not on the operational but on the strategic level of decision making Today this strategic layer is driven much more by domestic and international politicking than by creative strategic thinking This report advocates a new approach to strategic decision making which we label strategic design It summarizes and borrows some key insights from the design thinking literature in the business and public management literature and applies those to the security challenges surrounding stabilization efforts The report then illustrates this approach by developing and evaluating a few design sketches for new capability elements that even a small force provider like The Netherlands could start developing The report might be of interest to strategic planners and decision makers on both the military and civilians side
