2014 Marx Operating Calendar

Bert Mittchell Scruggs

2014 Marx Operating Calendar:

Capitalism and the Political Economy of Work Time Christoph Hermann, 2014-10-17 John Maynard Keynes expected that around the year 2030 people would only work 15 hours a week In the mid 1960s Jean Fourasti still anticipated the introduction of the 30 hour week in the year 2000 when productivity would continue to grow at an established pace Productivity growth slowed down somewhat in the 1970s and 1980s but rebounded in the 1990s with the spread of new information and communication technologies The knowledge economy however did not bring about a jobless future or a world without work as some scholars had predicted With few exceptions work hours of full time employees have hardly fallen in the advanced capitalist countries in the last three decades while in a number of countries they have actually increased since the 1980s This book takes the persistence of long work hours as starting point to investigate the relationship between capitalism and work time It does so by discussing major theoretical schools and their explanations for the length and distribution of work hours as well as tracing major changes in production and reproduction systems and analyzing their consequences for work hours Furthermore this volume explores the struggle for shorter work hours starting from the introduction of the ten hour work day in the nineteenth century to the introduction of the 35 hour week in France and Germany at the end of the twentieth century However the book also shows how neoliberalism has eroded collective work time regulations and resulted in an increase and polarization of work hours since the 1980s Finally the book argues that shorter work hours not only means more free time for workers but also reduces inequality and improves human and ecological sustainability

Restorations of Empire in Africa Samuel Agbam,2024 The first full length study of how Italian colonialism in Africa used the history of Roman imperialism on the continent to legitimise and promote its own imperial endeavours Agbam looks at a broad range of cultural documents to examine how the discourse of colonialism as the return of Rome to land rightfully Italian was disseminated **Translingual Narration** Bert Mittchell Scruggs,2015-07-31 Translingual Narration is a study of colonial Taiwanese fiction its translation from Japanese to Chinese and films produced during and about the colonial era It is a postcolonial intervention into a field largely dominated by studies of colonial Taiwanese writing as either a branch of Chinese fiction or part of a larger empire of Japanese language texts Rather than read Taiwanese fiction as simply belonging to one of two discourses Bert Scruggs argues for disengaging the nation from the former colony to better understand colonial

Taiwan and its postcolonial critics Following early chapters on the identity politics behind Chinese translations of Japanese texts attempts to establish a vernacular Taiwanese literature and critical space Scruggs provides close readings of short fiction through the critical prisms of locative and cultural or ethnic identity to suggest that cultural identity is evidence of free will Stories and novellas are also viewed through the critical prism of class consciousness including the writings of Yang Kui 1906 1985 who unlike most of his contemporaries wrote politically engaged literature Scruggs completes his core examination of identity by reading short fiction through the prism of gender identity and posits a resemblance between gender politics in colonial Taiwan and pre independence India The work goes on to test the limits of nostalgia and solastalgia in fiction and film by looking at how both the colonial future and past are remembered before concluding with political uses of cinematic murder Films considered in this chapter include colonial era government propaganda documentaries and postcolonial representations of colonial cosmopolitanism and oppression Finally ideas borrowed from translation and memory studies as well as indigenization are suggested as possible avenues of discovery for continued interventions into the study of postcolonial and colonial Taiwanese fiction and culture With its insightful and informed analysis of the diverse nature of Taiwanese identity Translingual Narration will engage a broad audience with interests in East Asian and postcolonial literature film history and culture

"They Just Need to Get a Job" Mary Brosnahan, 2024-11-12 Readers will come away infuriated with a greater understanding of the systemic causes of homelessness and with more compassion for their homeless neighbors Essential reading for any community affected by homelessness which is all of them Booklist Starred Review For readers of Andrea Elliott and Matthew Desmond the former CEO of the Coalition for the Homeless breaks through the highly destructive misinformation surrounding our homeless neighbors Conservative think tanks like the Manhattan Institute disseminate anti homeless myths in the media legislatures and the larger culture claiming that our homeless neighbors cause their own predicament and that the best we can do is manage the problem Drawing on her deep legal knowledge policy expertise and decades of frontline service Mary Brosnahan cuts through the misinformation to deliver two important messages that homelessness ultimately stems from a lack of investment in affordable housing and that the greatest myth of all is that we should have no hope In fact the proven solutions are well documented and the ability to enact them depends on us all Brosnahan takes a nationwide look from New York to Detroit Philly to L A and from rural areas such as Cumberland County Pennsylvania to debunk 15 widespread misconceptions including that the problem is inevitable in fact Housing First approaches have shown great success that handouts cause homelessness in fact the primary causes are flat wages and high rent that homeless people need to prove that they re ready to receive aid in fact enforcing hurdles is far more expensive and less effective than Housing First With brilliant insight Brosnahan showcases how by dispelling these pervasive myths rooted in fear we can embrace the affordable housing based solutions that will bring our impoverished neighbors home

Tree Story Valerie Trouet, 2020-04-21 What if the stories of trees and people are more closely linked than we ever imagined

People across the world know that to tell how old a tree is you count its rings. Few people, however, know that research into tree rings has also made amazing contributions to our understanding of Earth's climate history and its influences on human civilization over the past 2,000 years. In her captivating book *Tree Story*, Valerie Trouet reveals how the seemingly simple and relatively familiar concept of counting tree rings has inspired far-reaching scientific breakthroughs that illuminate the complex interactions between nature and people. Trouet, a leading tree ring scientist, takes us out into the field from remote African villages to radioactive Russian forests, offering readers an insider's look at tree ring research, a discipline known as dendrochronology. Tracing her own professional journey while exploring dendrochronology's history and applications, Trouet describes the basics of how tree cores are collected and dated with ring-by-ring precision, explaining the unexpected and momentous insights we've gained from the resulting samples. Blending popular science, travelogue, and cultural history, *Tree Story* highlights exciting findings of tree ring research, including the fate of lost pirate treasure, successful strategies for surviving California wildfire, the secret to Genghis Khan's victories, the connection between Egyptian pharaohs and volcanoes, and even the role of olives in the fall of Rome. These fascinating tales are deftly woven together to show us how dendrochronology sheds light on global climate dynamics and uncovers the clear links between humans and our leafy neighbors. Trouet delights us with her dedication to the tangible appeal of studying trees, a discipline that has taken her to austere and beautiful landscapes around the globe and has enabled scientists to solve long-pondered mysteries of Earth and its human inhabitants.

Price-Based Investment Strategies Adam Zarembka, Jacob "Koby" Shemer, 2018-07-25
 This compelling book examines the price-based revolution in investing, showing how research over recent decades has reinvented technical analysis. The authors discuss the major groups of price-based strategies, considering their theoretical motivation, individual and combined implementation, and back-tested results when applied to investment across country stock markets. Containing a comprehensive sample of performance data taken from 24 major developed markets around the world and ranging over the last 25 years, the authors construct practical portfolios and display their performance, ensuring the book is not only academically rigorous but practically applicable too. This is a highly useful volume that will be of relevance to researchers and students working in the field of price-based investing, as well as individual investors, fund pickers, market analysts, fund managers, pension fund consultants, hedge fund portfolio managers, endowment chief investment officers, futures traders, and family office investors.

Romanticism and Time Sophie Laniel-Musitelli, Céline Sabiron, 2021-03-10 Eternity is in love with the productions of time This original edited volume takes William Blake's aphorism as a basis to explore how British Romantic literature creates its own sense of time It

considers Romantic poetry as embedded in and reflecting on the march of time regarding it not merely as a reaction to the course of events between the late eighteenth and mid nineteenth centuries but also as a form of creative engagement with history in the making The authors offer a comprehensive overview of the question of time from a literary perspective applying a diverse range of critical approaches to Romantic authors from William Blake and Percy Shelley to John Clare and Samuel Rogers Close readings uncover fresh insights into these authors and their works including *Frankenstein* the most familiar of Romantic texts Revising current thinking about periodisation the authors explore how the Romantic poetics of time bears witness to the ruptures and dislocations at work within chronological time They consider an array of topics such as ecological time futurity operatic time or the temporality of Venice As well as surveying the Romantic canon's evolution over time these essays approach it as a phenomenon unfolding across national borders Romantic authors are compared with American or European counterparts including Beethoven Irving Nietzsche and Beckett Romanticism and Time will be of great value to literary scholars and students working in Romantic Studies It will be of further interest to philosophers and historians working on the connections between philosophy history and literature during the nineteenth century

Projections of Memory Richard I. Suchenski, 2016 Although the length of commercially distributed feature films has remained relatively standardized since the mid 1910s there is also a small but substantial body of ambitious works that utilize their extraordinarily long durations to give cinema the character of a religious ritual While their methods and overall goals vary considerably these works actively participate in a modernist exploration of the relationship between form and content often taking their innovations to what seem to be their limits simultaneously establishing and exhausting their own paradigms Their makers strove to create cinematic cathedrals monuments to the imagination that promise profound transformations of vision selfhood and experience Unique both in their formal adventurousness and their modes of presentation works like *Napoléon* Abel Gance 1927 *Eniaios* Gregory Markopoulos 1947 1992 *Out 1* Jacques Rivette 1971 and *Histoire(s) du cinéma* Jean-Luc Godard 1988 1998 utilize their temporal scale to create a particularly intense form of spectatorial engagement that is wedded to or related to a larger utopian program Synthesizing their disparate influences into magisterial edifices these projects treat cinema as a space in which the most ancient forms can be made radically new

Industrial and Labor Relations Review, 2014-07 **Pastrami on Rye** Ted Merwin, 2018-10-02 Winner of the 2015 National Jewish Book Award in Education and Jewish Identity from the Jewish Book Council The history of an iconic food in Jewish American culture For much of the twentieth century the New York Jewish deli was an iconic institution in both Jewish and American life As a social space it rivaled and in some ways surpassed the synagogue as the primary gathering place for the Jewish community In popular culture it has been the setting for classics like *When Harry Met Sally* And today after a long period languishing in the trenches of the hopelessly old fashioned it is experiencing a nostalgic resurgence *Pastrami on Rye* is the first full length history of the New York Jewish deli The deli argues Ted Merwin reached its full flowering not in the

immigrant period as some might assume but in the interwar era when the children of Jewish immigrants celebrated the first flush of their success in America by downing sandwiches and cheesecake in theater district delis But it was the kosher deli that followed Jews as they settled in the outer boroughs of the city and that became the most tangible symbol of their continuing desire to maintain a connection to their heritage Ultimately upwardly mobile American Jews discarded the deli as they transitioned from outsider to insider status in the middle of the century Now contemporary Jews are returning the deli to cult status as they seek to reclaim their cultural identities Richly researched and compellingly told Pastrami on Rye gives us the surprising story of a quintessential New York institution
