Scheidt, 2021 Although many individuals identify as atheists little is understood about the belief system beyond the simple lack of a belief in a higher power Hannah K Scheidt s *Practicing Atheism* Culture Media and Ritual in the Contemporary Atheist Network unpacks the cultural products both corporate driven and grassroots that carry messages about atheism to examine the complicated relationship between organized atheism and religion **The World and the Word: Making Sense of Social Science in an Age of Conflict, Opposition, and Grace** Dr. Herbert L. Green Jr., 2017-08-24 Jesus very presence as the New Testament age unfolded 1st century A D engendered opposition created conflict while ushering in grace His ideas were considered radical Why is this so The NIV Archeological Study Bible 2005 NIV Student Bible et al and corroborating Extra Biblical evidence provide a context for the Word view about Jesus in Biblical history and supports aspects of the social and physical sciences in terms of cultural socio economic political historical archeological and philosophical apologetics evidence As the pages of this book unfold there is an internal consistency with social science and The Bible However where such consistency appeared to diverge this author attempts to filter out the noise by applying critical thinking criteria to a Worldview that may not be consistent with the Word view The goal of this book therefore is to provide some exposition Greek apologia of the Word and see how the World fits Born again Christians

can be credible scientists and not compromise Gods Word After thoughtful reading please send reflective comments to Dr Herb Green Jr at docgreen48 outlook com **Don't Tell Me** Mark Schwieso,2022-08-19 Today we live in a complacent country where only certain answers are acceptable In this book the author dares to go against accepted wisdom considering questions such as Is the divorce rate really 50% and if it isn't what is it and why should we care Why is the media telling us COVID 19 is so bad Do we really know Charles Darwin's theory of evolution to be true Has the Bible been disproven and debunked Other topics include the Big Bang Theory biological differences between men and women politics and religion random mutations UFOs and global myths The author also explains that the best lies are 99% true liars practice their craft using the truth to mislead others Moreover he notes that no matter what you believe truth is still true For instance even if a person believes they can fly if they jump off a ten story building they will still die upon hitting the ground Join the author as he asks questions that the establishment would prefer you keep to yourself by reading Don't Tell Me [The Military Guide to Disarming Deception](#) Col. David J. Giammona,Troy Anderson,2022-08-09 Time Is Running Out Are You Battle Ready Military leaders throughout history have used the strategy of deception to win wars and Satan is a master strategist He and his forces have enveloped the world in an unprecedented age of mass media disinformation government psychological operations social media censorship and other sophisticated mind control techniques In this eye opening book military and religious expert Colonel David J Giammona and Pulitzer Prize nominated journalist Troy Anderson equip you to recognize and resist the propaganda and deceptive ideologies infiltrating the Church and society The last days are coming And if we don't know how to fight the enemy's pervasive lies we will be swept away by them Here are the powerful military and spiritual tactics you need to stand against the devil's rampant deceptions and be a light to a world in darkness This book will prepare you to recognize and counter deception not only in politics religion media and science but especially in yourself HUGH ROSS astrophysicist founder and president Reasons to Believe A life changing hard hitting and deeply insightful book It's the training manual for the coming revival and revolution of the Church DR ROBERT JEFFRESS pastor professor television host Pathway to Victory *The Matriarchs of Genesis* David J. Zucker,Moshe Reiss,2015-08-27 Sarah Hagar Rebekah Leah Rachel Bilhah Zilpah These are the Matriarchs of Genesis A people's self understanding is fashioned on their heroes and heroines Sarah Rebekah Leah and Rachel the traditional four Matriarchs are important and powerful people in the book of Genesis Each woman plays her part in her generation She interacts with and advises her husband seeking to achieve both present and future successes for her family These women act decisively at crucial points through their actions and words their family dynamics change irrevocably Unlike their husbands we know little of their unspoken thoughts or actions What the text in Genesis does share shows that these women are perceptive and judicious often seeing the grand scheme with clarity While their stories are told in Genesis in the post biblical world of the Pseudepigrapha their stories are retold in new ways The rabbis also speak of these women and contemporary scholars and feminists continue to explore the Matriarchs in

Genesis and later literature Using extensive quotations we present these women through five lenses the Bible Early Extra Biblical Literature Rabbinic Literature Contemporary Scholarship and Feminist Thought In addition we consider Hagar Abraham s second wife and the mother of Ishmael as well as Bilhah and Zilpah Jacob s third and fourth wives **The Greatest Lie on Earth (Expanded Edition)** Edward Hendrie,2018-09-12 This book reveals the mother of all conspiracies It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth The most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour What most people are not told is that the purported spinning orbiting and speeding through space has never been proven In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it **The Divine Default** J. J. Dyken,2013 JJ Dyken takes commonly asserted religious claims and applies each of them to modern day examples to demonstrate the often fallacious nature of religious belief He uses a mixture of common sense and scrupulous logic to mount an attack on not only religion itself but also upon the religious pseudoscientists who try to justify their assertions with faulty science **Science-Christianity and Church Activities in the Samoan Islands** Fuimaono Fini Aitaoto,2024-03-05 Following up on his first two books on Church events and the history of the Assembly of God Church in American Samoa author Fuimaono Fini Aitaoto delves deeper into new science discoveries as they relate to Christianity If you re interested in Church related events on the Samoan Islands during the early twenty first century then you need this book There are no known local sources on the progress of the various churches in the Samoan islands during this period and this book provides updated information to fill that void This book is geared mainly for Bible college students and researchers and the author explores issues including traditions translations Climate Change law and politics His contemporary perspectives and commentaries provides an inclusive and deeper examination of church operations within the Samoan Islands and Samoan churches abroad
