 Chevrolet Nova was considered a budget option a model engineered primarily for the price conscious customer Certainly
 performance models were already in Chevrolet s fold With the Camaro the Corvette and the Chevelle leading the way why
 would Chevy need another performance model Well savvy Chevy customers knew that you could get a really tricked out Nova
 right from the factory with SS packages and big block 396 engines along with performance transmissions and gearing for a
 fair amount less than an equally equipped Camaro As a bonus Novas were lighter weight too It was the performance bargain
 of the Chevy lineup Fast forward to today The first generation Camaros cost a small fortune and while Novas have held their
 value quite well they are still a performance bargain compared to the other Chevy performance models of the era Not only
 are they more affordable than Camaros but you can do a whole lot to make them really fast In Chevy Nova 1968 1974 How to
