Challenging Clinical Practice in Dermatology and Cosmetology as a New Platform for Teaching Khalifa E.

Sharquie, Ahmed Abdul-Aziz Ahmed, Abdullah Mancy, 2025 In this volume edited by Prof Khalifa E Sharquie, Dr Ahmed Abdul Aziz Ahmed and Dr Abdullah Mancy, we are happy to share with the scientific community the highest level of clinical investigation and solution of clinical cases. The content of this atlas and textbook includes 100 clinical challenging cases in dermatology and cosmetic and aesthetic dermatology. This kind of content is basically related to reports of singular clinical cases and it represents a new and extraordinary platform for teaching students, medical doctors, and also academicians. What is special in this book? Well, first of all, the large variety in the clinical cases which covers all what is relevant in our discipline. It is also extremely relevant: the choice of examination for making the correct diagnosis in simple or less simple or extremely controversial clinical cases. Each clinical case gives to the reader the opportunity to enter into our discipline and to realize, starting with the clinical examination, how important can be the teaching role and the creation of an algorithm of priorities for identifying and correctly reading different situations, both benign and malignant. We are impressed with the extremely high level of knowledge which will be shared with the scientific community thanks to the excellent work of the Editors. We hope that this will be the first of a long series of other books and possibly videos which will make easier to enter the complex and enigmatic field of dermatology and cosmetic and aesthetic dermatology. Congratulations to the Authors and a special thanks to the readers. We hope that we will find this book on your desk and that you will have the chance each and every day of your working life to consult the volume in order to find explanation and inspiration for your every day activities. Best regards, Torello Lotti MD FRCP, Edinburgh Academician of Italy, Chancellor University of Zug, Leonardo da Vinci, Switzerland.
