S Ben Porath

Architecture For Humanity Sf:

Dwell, 2002-06 At *Dwell* we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

Architecture INTL Nancy Solomon, 2008-05-27 On the occasion of its 150th anniversary the American Institute of Architects asked more than 70 contributors to examine the complex and evolving of the America s architects in shaping our cities and communities Through essays vignettes and profiles illustrated with more than 560 photographs *Architecture* provides a look at the breath and depth of the architecture profession and points to the significant contributions architects have made in all aspects of society Most important the book demonstrates the value of applying architectural thinking to the many serious issues from global warming and homeland security to accessibility and diversity facing our world today

BOOK JACKET [Architecture and Science-Fiction Film](#) David T. Fortin, 2016-12-05 The home is one of our most enduring human paradoxes and is brought to light tellingly in science fiction SF writing and film However while similarities and crossovers between architecture and SF have proliferated throughout the past century the home is often overshadowed by the spectacle of otherness The study of the familiar home within the alien SF creates a unique cultural lens through which to reflect on our current architectural condition SF has always been linked with alienation however the conditions of such alienation and hence notions of home have evidently changed There is often a perceived comprehension of the familiar that atrophies the inquisitive and interpretive processes commonly activated when confronting the unfamiliar Thus by utilizing the estranging qualities of SF to look at a concept inherently linked to its perceived opposite the home a unique critical analysis with particular relevance for contemporary architecture is made possible

[Architectural Humanities in Progress](#) Bagoes Wiryomartono, 2022-02-02 This monograph brings three branches of philosophy together epistemology ethics and aesthetics It assesses the built environment as a case study from a phenomenological perspective Under the notion of phenomenology this study understands the built environment as the hermeneutical phenomenon of being in the life world that is experienced by people within the socio cultural and historical context of habitation Hermeneutically the built environment as a phenomenon is contextually interwoven with other phenomena within the socio cultural historical and environmental network Phenomenologically speaking the task of the study is to excavate listen to unfold divulge and reconstruct the socio culturally environmentally and historically constructed relationship between people and their built environment that build develop and elaborate the system of knowledge ethics and aesthetics By and large its nature and findings are theoretical and interdisciplinary so it will be of interest not only for philosophers but also to scholars studying urban development and anthropology

[Designing San Francisco](#) Alison Isenberg, 2024-09-24 A major urban history of the design and development of postwar San Francisco *Designing San Francisco* is the untold story of the formative postwar

decades when U S cities took their modern shape amid clashing visions of the future In this pathbreaking and richly illustrated book Alison Isenberg shifts the focus from architects and city planners those most often hailed in histories of urban development and design to the unsung artists activists and others who played pivotal roles in rebuilding San Francisco between the 1940s and the 1970s Previous accounts of midcentury urban renewal have focused on the opposing terms set down by Robert Moses and Jane Jacobs put simply development versus preservation and have followed New York City models Now Isenberg turns our attention west to colorful pioneering and contentious San Francisco where unexpectedly fierce battles were waged over iconic private and public projects like Ghirardelli Square Golden Gateway and the Transamerica Pyramid When large scale redevelopment came to low rise San Francisco in the 1950s the resulting rivalries and conflicts sparked the proliferation of numerous allied arts fields and their professionals including architectural model makers real estate publicists graphic designers photographers property managers builders sculptors public interest lawyers alternative press writers and preservationists Isenberg explores how these centrally engaged arts professionals brought new ideas to city regional and national planning and shaped novel projects across urban suburban and rural borders San Francisco s rebuilding galvanized far reaching critiques of the inequitable competition for scarce urban land and propelled debates over responsible public land stewardship Isenberg challenges many truisms of this renewal era especially the presumed male domination of postwar urban design showing how women collaborated in city building long before feminism s impact in the 1970s An evocative portrait of one of the world s great cities *Designing San Francisco* provides a new paradigm for understanding past and present struggles to define the urban future

The Alcalde ,2011-01 As the magazine of the Texas Exes The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years The Alcalde serves as an intellectual crossroads where UT s luminaries artists engineers executives musicians attorneys journalists lawmakers and professors among them meet bimonthly to exchange ideas Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater The magazine s unique name is Spanish for mayor or chief magistrate the nickname of the governor who signed UT into existence was The Old Alcalde

Sustainability and Privilege Gabriel Arboleda,2022-05-13 Social design the practice of designing for poverty relief is one of the most popular fields in contemporary architecture Its advocates focusing on the architect s creativity and good intentions are overwhelmingly laudatory while its detractors concerned with the experience of its beneficiaries have dismissed it as an expression of cultural imperialism Placed midway between innocuous celebration and radical critique Sustainability and Privilege highlights the lessons that can be learned from social design s current limitations and proposes a feasible way to improve this practice In this broad ranging account enlivened by fieldwork and case studies Gabriel Arboleda contends that social design s invocation of sustainability often serves to marginalize and displace vulnerable populations through projects that involve experimentation of faulty alternative technologies or that result in so called green gentrification or that impose untoward

economic and other burdens Arboleda is fiercely critical of the way social design has been carried out in impoverished regions of the world most notably in Africa and Latin America In addressing the challenges posed by issues of privilege in social design s use of sustainability the book proposes a new interdisciplinary approach called ethnoarchitecture arguing for a simpler open ended and stakeholder driven process that eliminates the casual imposition of the architect s ideas on vulnerable populations foregrounding the people s voices experience and input in social design practice
