From Lived Experience to the Written Word Pamela H. Smith, 2022-09-30 How and why early modern European artisans began to record their knowledge In *From Lived Experience to the Written Word* Pamela H Smith considers how and why beginning in 1400 CE European craftspeople began to write down their making practices Rather than simply passing along knowledge in the workshop these literate artisans chose to publish handbooks guides treatises tip sheets graphs and recipe books sparking early technical writing and laying the groundwork for how we think about scientific knowledge today Focusing on metalworking from 1400 1800 CE Smith looks at the nature of craft knowledge and skill studying present day and historical practices objects recipes and artisanal manuals From these sources she considers how we can reconstruct centuries of largely lost knowledge In doing so she aims not only to unearth the techniques material processes and embodied experience of the past but also to gain insight into the lifeworld of artisans and their understandings of matter **Germany**

and the Axis Powers from Coalition to Collapse R. L. DiNardo, 2005 It seemed that whenever Mussolini acted on his own it was bad news for Hitler Indeed the Fuhrer s relations with his Axis partners were fraught with an almost total lack of coordination Compared to the Allies the coalition was hardly an alliance at all Focusing on Germany s military relations with Italy Romania Hungary and Finland Richard DiNardo unearths a wealth of information that reveals how the Axis coalition

largely undermined Hitler's objectives from the Eastern Front to the Balkans, Mediterranean and North Africa. DiNardo argues that the Axis military alliance was doomed from the beginning by a lack of common war aims, the absence of a unified command structure, and each nation's fundamental mistrust of the others. Germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded, and because Hitler insisted on separate pacts with each nation, Italy and Finland often found themselves conducting counterproductive parallel wars on their own. DiNardo's detailed assessments of ground, naval, and air operations reveal precisely why the Axis allies were so dysfunctional as a collective force, sometimes for seemingly mundane but vital reasons, such as a shortage of interpreters, for example. His analysis covers coalition warfare at every level, demonstrating that some military services were better at working with their allies than others, while also pointing to rare successes such as Rommel's effective coordination with Italian forces in North Africa. In the end, while some individual Axis units fought with distinction, if not on a par with the vaunted Wehrmacht, and helped Germany achieve some of its military aims, the coalition's overall military performance was riddled with disappointments. Breaking new ground, DiNardo's work enlarges our understanding of Germany's defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare.
