Arabic Falafel Recipe:

Beyond Hummus and Falafel Liora Gvion, 2012-10-22 *Beyond Hummus and Falafel* is the story of how food has come to play a central role in how Palestinian citizens of Israel negotiate life and a shared cultural identity within a tense political context. At the household level, Palestinian women govern food culture in the home, replicating tradition and acting as agents of change and modernization, carefully adopting and adapting mainstream Jewish culinary practices and technologies in the kitchen. Food is at the center of how Arab culture minorities define and shape the boundaries and substance of their identity within Israel.

Online Language Teaching in Diverse Contexts Rachel Friedman, Angela George, 2022-08-15 This book brings together a variety of perspectives and interventions related to online and remote language teaching. Aimed at scholars and language teachers as well as students of language pedagogy, these perspectives are drawn from diverse teaching contexts, although the findings they share can be applied across different levels and target languages. This volume also includes reflection on implementing these ideas during and after the remote learning necessitated by the COVID 19 pandemic. This volume will be especially valuable in the coming years as educators and researchers work to understand the experiences of teachers and learners during the pandemic and as the remote teaching precipitated by recent events increases interest in online learning. As online language course offerings continue to grow and develop, this volume will be a rich resource for researchers, instructors, and students interested in better understanding the diverse practices and methods that can be employed in online language teaching.

Falafel Nation Yael Raviv, 2015-11 When people discuss food in Israel, their debates ask politically charged questions: Who has the right to falafel? Whose hummus is better? But Yael Raviv's *Falafel Nation* moves beyond the simply territorial to divulge the role food plays in the Jewish nation. She ponders the power struggles, moral dilemmas, and religious and ideological affiliations of the different ethnic groups that make up the Jewish State and how they relate to the gastronomy of the region. How do we interpret the recent upsurge in the Israeli culinary scene, the transition from ideological asceticism to the current deluge of fine restaurants, gourmet stores, and related publications and media? Focusing on the period between the 1905 immigration wave and the Six Day War in 1967, Raviv explores foodways from the field, factory, market, and kitchen to the table. She incorporates the role of women, ethnic groups, and different generations into the story of Zionism and offers new assertions from a secular foodie perspective on the relationship between Jewish religion and Jewish nationalism. A study of the changes in food practices and in attitudes toward food and cooking, *Falafel Nation* explains how the change in the relationship between Israelis and their food mirrors the search for a definition of modern Jewish nationalism.
