Claudia Ghrawi,2025-10-20 This book discusses popular contention in Saudi Arabia s Eastern Province until 1952 the governorate of al Ahsa under the aegis of petro capitalism The notion of urban revolution takes on a double meaning namely the rapid urbanisation which broke with the region s urban past and destroyed the oasis environment and merchant economy and the types of resistance and rebellious fervour that were triggered by the concentration of labour and industrial production in the new urban centres The book uses archival sources from the United States Great Britain and Saudi Arabia as well as accounts of Saudi oil workers activists and other contemporaries **Saudi Arabia 1975 - 2020** Anthony

lives and formation of building actors from laborers to architects and engineers from economical aspects to social and political implications on legal aspects and the strong ties between the history of construction and the history of engineering sciences The conference integrates perfectly into the daily work at the Institute for Preservation and Construction History at ETH Zurich Its two chairs the Chair for Building Archaeology and Construction History and the Chair for Construction Heritage and Preservation endeavor to cover the entire field and to bridge the gaps between the different approaches methodologies and disciplines between various centuries as well as technologies learning together and from each other The proceedings of 8ICCH give a representative picture of the state of the art in the field and will serve as a reference point for future studies
