A View from the River Jennifer Marjorie Bosch, 2017 The story of Chicago is the story of its river A

View from the River is an essential guide to more than 60 significant buildings and structures along the Chicago River. This visual tour filled with stunning contemporary photography and a variety of historical images serves as a companion to the Chicago Architecture Foundation River Cruise aboard Chicago's First Lady Cruises. Since Chicago was founded in the 1830s, architects and engineers have designed this city through a series of unforgettable engineering marvels from the buildings of the Chicago skyline to the Chicago River itself. The river, though a natural feature, has been dredged, straightened, and even had its direction reversed in the past 200 years. Today the river flows through a canyon of skyscrapers, civic structures, waterside homes, and parks. As the city grows and changes, the river and our understanding of it changes as well. Now in its third edition, *A View from the River* is updated to reflect the city's latest developments and to further explore Chicago's past, present, and future.

A View from the River Jay Pridmore, 2000. The full-page layout of photographs by architectural photographer Hedrich Blessing, which show the magnificent skyscrapers of Chicago in a variety of complementary light conditions, reproduces the popular Chicago Architecture Foundation tours. An informative text accompanies the photos on the facing page.

Chicago on Foot Ira J. Bach, 1969 **Chicago** Gerard R. Wolfe, 1996 The University of Chicago Jay Pridmore, 2006 Chicago Architecture Edward Keegan, 2008-05-27. Universally recognized as an architectural center, the city of Chicago contains some of the world's finest buildings by the most renowned architects of the nineteenth and twentieth centuries: Frank Lloyd Wright, Louis Sullivan, Daniel Burnham, Mies van der Rohe, and many more. They left their stamp on the city's skyline and, as a result, influenced the practice of architecture around the globe. This book, published in association with the city's foremost architectural institution, the Chicago Architectural Foundation, features an in-depth analysis of 42 buildings erected within the last two centuries that are considered to be the seminal works of Chicago architecture.
