Condrey, Dmitry Goncharov, 2017-09-25 Although it has been more than 20 years since Communism crumbled in Central and Eastern Europe and the Soviet Union many scholars and politicians still wonder what the lifting of the Iron Curtain has really meant for these former Communist countries And because these countries were largely closed off to the world for so long there has yet to be an all inclusive study on their administrative systems until now In Public Administration in Post Communist Countries Former Soviet Union Central and Eastern Europe and Mongolia expert contributors supply a comprehensive overview and analysis of public administration in their respective post Communist countries They illustrate each country s transformation from an authoritarian system of governance into a modern market based and in some cases democratic government The book covers the countries that were officially part of the Soviet Union Russia Ukraine Moldova Estonia Lithuania Georgia Kazakhstan and Kyrgyzstan those that were theoretically independent but were subject to Soviet dominated Communist rule Bulgaria Hungary Romania and Poland as well as a satellite republic that was under significant Soviet influence Mongolia Each chapter includes a brief introduction to the specific country an overview of politics and administration and discussions on key aspects of public management and administration including human resource management public budgeting financial management corruption accountability political and economic reform civil society and prospects for future development in the region The book concludes by identifying common themes and trends and pinpointing similarities and differences to supply you with a broad comparative perspective **Proceedings of 17th International Conference on Machine Learning and Computing** Lin Huang, David Greenhalgh, 2025-08-27 This book comprises original and peer reviewed research papers presented at 2025 17th International Conference on Machine Learning and Computing that was held in Guangzhou China from February 14 to 17 2025 The focus of the conference is to establish an effective platform for institutions and industries to share ideas and to present the works of scientists engineers educators and students from all over the world Topics discussed in this volume
