Advanced Microsystems for Automotive Applications 2014 Jan Fischer-Wolfarth, Gereon Meyer, 2014-06-17 The automobile is going through the biggest transformation in its history Automation and electrification of vehicles are expected to enable safer and cleaner mobility The prospects and requirements of the future automobile affect innovations in major technology fields like driver assistance systems vehicle networking and drivetrain development Smart systems such as adaptive ICT components and MEMS devices novel network architectures integrated sensor systems intelligent interfaces and functional materials form the basis of these features and permit their successful and synergetic integration It has been the mission of the International Forum on Advanced Microsystems for Automotive Applications AMAA for more than fifteen years to detect novel trends and to discuss the technological implications from early on Therefore the topic of the AMAA 2014 will be Smart Systems for Safe Clean and Automated Vehicles This book contains peer reviewed papers written by leading engineers and researchers which all address the ongoing research and novel developments in the field **Enabling Smart Urban Services with GPS Trajectory Data** Chao Chen, Daqing Zhang, Yasha Wang, Hongyu Huang, 2021-04-01 With the proliferation of GPS devices in daily life trajectory data that records where and when people move is now readily available on a large scale As one of the most typical representatives it has now become widely recognized that taxi trajectory data provides rich opportunities to enable promising smart urban services Yet a considerable gap still exists between the raw data available and the extraction of actionable intelligence This gap poses fundamental challenges on how we can achieve such intelligence These challenges include inaccuracy issues large data volumes to process and sparse GPS data to name but a few Moreover the movements of taxis and the leaving trajectory data are the result of a complex interplay between several parties including drivers passengers travellers urban planners etc In this book we present our latest findings on mining taxi GPS trajectory data to enable a number of smart urban services and to bring us one step closer to the vision of smart mobility Firstly we focus on some fundamental issues in trajectory data mining and analytics including data map matching data compression and data protection Secondly driven by the real needs and the most common concerns of each party involved we formulate each problem mathematically and propose novel data mining or machine learning methods to solve it Extensive evaluations with real world datasets are also provided to demonstrate the effectiveness and efficiency of using trajectory data Unlike other books which deal with people and goods transportation separately this book also extends smart urban services to goods transportation by introducing the idea of crowdshipping i e recruiting taxis to make package deliveries on the basis of real time information Since people and goods are two essential components of smart cities we feel this extension is both logical and essential Lastly we discuss the most important scientific problems and open issues in mining GPS trajectory data *Smart Computing Applications in Crowdfunding* Bo Xing, Tshilidzi Marwala, 2018-12-07 The book focuses on smart computing for crowdfunding usage looking at the crowdfunding landscape e g reward donation equity P2P based and the

crowdfunding ecosystem e.g. regulator, asker, backer, investor and operator. The increased complexity of fund raising scenario driven by the broad economic environment as well as the need for using alternative funding sources has sparked research in smart computing techniques. Covering a wide range of detailed topics, the authors of this book offer an outstanding overview of the current state of the art, providing deep insights into smart computing methods, tools and their applications in crowdfunding, exploring the importance of smart analysis, prediction and decision making within the fintech industry. This book is intended to be an authoritative and valuable resource for professional practitioners and researchers alike as well as finance, engineering and computer science students who are interested in crowdfunding and other emerging fintech topics.

Advanced Methodologies and Technologies in Business Operations and Management Khosrow-Pour, D.B.A., Mehdi, 2018-09-14. Businesses consistently work on new projects, products and workflows to remain competitive and successful in the modern business environment. To remain zealous, businesses must employ the most effective methods and tools in human resources, project management and overall business plan execution as competitors work to succeed as well. *Advanced Methodologies and Technologies in Business Operations and Management* provides emerging research on business tools such as employee engagement, payout policies and financial investing to promote operational success. While highlighting the challenges facing modern organizations, readers will learn how corporate social responsibility and utilizing artificial intelligence improve a company's culture and management. This book is an ideal resource for executives and managers, researchers, accountants and financial investors seeking current research on business operations and management.

Mathematical Morphology and Its Applications to Signal and Image Processing Jón Atli Benediktsson, Jocelyn Chanussot, Laurent Najman, Hugues Talbot, 2015-05-15. This book contains the thoroughly refereed proceedings of the 12th International Symposium on Mathematical Morphology (ISMM 2015) held in Reykjavik, Iceland in May 2015. The 62 revised full papers were carefully reviewed and selected from 72 submissions. The papers are organized in topical sections on evaluations and applications, hierarchies, color, multivalued and orientation fields, optimization, differential calculus and probabilities, topology and discrete geometry, and algorithms and implementation. **Backpacker**, 2007-09. Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine and the only magazine whose editors personally test the hiking trails, camping gear and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor industry awards are measured. **Mobile Health** James M. Rehg, Susan A. Murphy, Santosh Kumar, 2017-07-12. This volume provides a comprehensive introduction to mHealth technology and is accessible to technology-oriented researchers and practitioners with backgrounds in computer science, engineering, statistics and applied mathematics. The contributing authors include leading researchers and practitioners in the mHealth field. The book offers an in-depth exploration of the three key

elements of mHealth technology the development of on body sensors that can identify key health related behaviors sensors to markers the use of analytic methods to predict current and future states of health and disease markers to predictors and the development of mobile interventions which can improve health outcomes predictors to interventions Chapters are organized into sections with the first section devoted to mHealth applications followed by three sections devoted to the above three key technology areas Each chapter can be read independently but the organization of the entire book provides a logical flow from the design of on body sensing technology through the analysis of time varying sensor data to interactions with a user which create opportunities to improve health outcomes This volume is a valuable resource to spur the development of this growing field and ideally suited for use as a textbook in an mHealth course Translating New York Regina Galasso,2018-06-14 Drawing from several genres *Translating New York* recovers cultural narratives occluded by single linguistic or national literary histories and proposes that reading these texts through the lens of translation unveils new pathways of cultural circulation and influence Galasso argues that contact with New York ignited a heightened sensitivity towards language garnering literary achievement and aesthetic innovation *Mobile User Research* Sunny Consolvo, Frank R.
