### Function Family Application

#### Identifying Function Families in

Example: It's only Tuesday and we've already made four calls to the gym. The gym membership is supposed to cost \$100, which is right. The club that charges \$10 a month is the one we want. If we're looking for a gym membership, which is the number of months we've been at the gym?

1. Name the function family. What aspects of the membership situation indicate that it belongs to that family?
2. Make a table to represent the situation.
3. Use technology to graph the function.
  - What is the slope?
  - What is the y-intercept?
  - What is the x-intercept?
4. Name the independent variable in this situation.
5. Name the dependent variable in this situation.
6. Does this situation have a constant? If so, explain its meaning within the context of the situation.
7. Does the situation have a variable? If so, explain its meaning within the context of the situation.
