How are investments recorded under the cost method at time of purchase and year end - ANS At cost when purchased and at market value at year end

Cost method is used when - ANS Significant influence has not been established and they don't have ability to control or exercise significant influence over the investee

Equity method is used - ANS To account for investments when investor exercises significant influence over operating and financing policies of investee and consolidation is not appropriate

Equity method investment in sub = - ANS Investor's share of sub's net assets

Under equity method how are investments recorded for investor - ANS Investor reports investment in sub as line item on BS instead of reporting all assets and liabilities of sub individually in consolidated FS

Consolidation - ANS When an entity exercises control over another, consolidation is required

Consolidation is appropriate when - ANS Parent-sub relationship exists

Consolidation includes - ANS Eliminating all intercompany transactions

Cost method is carried at - ANS Historical cost on BS until investment is sold

When do you recognize income under cost method - ANS When dividend has been declared (no legal claim before dividend has been declared)

Liquidating dividends occur when - ANS Investor's share of all dividends declared by investee exceed investee's net income since acquisition (cumulative net income)

What does investor do to their investment when there is a liquidating dividend under cost method - ANS Reduces their investment by investor's share of excess net income over the dividend

Once investor has recorded a liquidating dividend, comparison in future periods between cumulative earnings and dividends of investee should be based on - ANS Date of last liquidating dividend, not date investor acquired stock

If investor purchases additional shares greater than __%, they should - ANS 20%; convert from cost method to equity method; restate balance to equity method balance
