Advanced Grammar A Manual For Student

Marcel A. Müller

Advanced Grammar A Manual For Student:

Advanced Grammar Dorothy Disterheft, 2004 Advanced Grammar introduces basic concepts of English grammar by reinforcing the fact that the infinite variety of sentences produced by every speaker is governed by a small set of rather simple rules. It presents information about history to emphasize that English is a constantly changing language, a subject that readers will find intriguing. The book provides great detail about a broad array of constructions: passive, negative questions, tag questions, existentials, clefts, fronting, left and right dislocation, emphasis, contrast, subordination, and conjoined sentences, and gives more information about sentence structure, especially the auxiliary system, than any other book on the market. It combines all subfields of linguistics and presents them in an integrated manner so that readers can easily see how all of language is an interconnecting system. Excellent as a reference source for employees in fields where writing effectively for business is necessary.

Bilingual Grammar of English-Spanish Syntax Sam Hill, William Bradford, 2000. This comparative analysis of the interlingual differences between English and Spanish allows instructors to comprehend and analyze the linguistic behaviors of their students and thereby help them achieve bilingualism. Intended for advanced upper division and graduate students intending to teach Spanish to English speakers, English to Spanish speakers, and translators of both languages. Plastic comb binding. Annotation copyrighted by Book News Inc. Portland, OR.

Studies in Renaissance Grammar W. Keith Percival, 2023-05-31. To what extent can one speak of the Renaissance in terms of grammar? Did the medieval curricular subject *grammatica* survive into the Renaissance unchanged, or was it transformed by the pedagogical programme of the humanists? The studies collected here focus on this question and trace the development of humanistic approaches to grammar. The first section consists of essays on the general characteristics of grammar in the period and on its connections with rhetoric. The following parts are devoted to three major grammatical writers: Guarino Veronese (1374-1460), Niccolò Perotti (1419-1480), and Antonio de Nebrija (1441-1522). There is finally a section dealing with other figures such as the famous Lorenzo Valla (1407-1457). Professor Percival focuses throughout on widely disseminated textbooks, beginning with the earliest attempt at a humanistic rejuvenation of grammar, the brief *Regulae grammaticales* of Guarino Veronese (c. 1418), followed by Perotti's comprehensive *Rudimenta grammatices* published in 1473 by Rome's first printers, and finally Nebrija's commercially successful *Introductiones Latinae* (Salamanca, 1481). Nebrija's textbook proved the longest lived, but Perotti's was also an international best seller, going through many editions in several countries.
