A Primer in Social Choice Theory, 2009-04-23 This introductory text explores the theory of social choice Written as a primer suitable for advanced undergraduates and graduates this text will act as an important starting point for students grappling with the complexities of social choice theory Rigorous yet accessible this primer avoids the use of technical language and provides an up to date discussion of this rapidly developing field This is the first in a series of texts published in association with the LSE

Economics and Ageing José Luis Iparraguirre, 2018-12-11 This upper level textbook provides a coherent introduction to the economic implications of individual and population ageing Placing economic considerations into a wider social sciences context this is ideal reading not only for advanced undergraduate and masters students in economics health economics and the economics of ageing but also policy makers students professionals and practitioners in gerontology sociology health related sciences and social care This volume introduces the different conceptualisations of age and definitions of old age as well as the main theories of individual ageing as developed in the disciplines of biology psychology and sociology It covers the economic theories of fertility mortality and migration and describes the four main frameworks that can be used to study economics and ageing namely the life cycle the overlapping generations the perpetual youth and the dynastic models

Handbook of Water Economics Ariel Dinar, Kurt Schwabe, 2015-09-25 Water scarcity whether in the quality or quantity dimension afflicts most countries Decisions on water management and allocation over time space and among uses and users involve economic considerations This Handbook assembles research that represents recent thinking and applications in water economics The book chapters are written by leading scholars in the field who address issues related to its use management and value The topics cover analytical methods sectoral and intersectoral water issues and issues associated with different sources of water

The Internet, Development, Human Rights and the Law in Africa Danwood Chirwa, Caroline Ncube, 2023-03-17 This book tracks and critiques the impact of the internet in Africa It explores the legal policy implications of and legal responses to the internet in matters straddling human rights development trade criminal law intellectual property and social justice from the perspective

of several African countries and the region Well known and emerging African scholars consider whether access to the internet is a human right the implications on the right to privacy e commerce cybercrime the opportunities and dangers of admitting electronic evidence the balancing of freedom of expression with the protection of intellectual property and how different African legal systems address this tension This book will be an invaluable resource for a wide range of stakeholders including researchers scholars and postgraduate students policymakers and legislators lawyers and judicial officers crime fighting agencies national human rights institutions civil society organisations international and regional organisations and human rights monitoring bodies

Game Theory Hans Peters,2008-08-15 This book presents the basics of game theory both on an undergraduate level and on a more advanced mathematical level It covers topics of interest in game theory including cooperative game theory Every chapter includes a problem section

The Repugnant Conclusion Jesper Ryberg,Torbjörn Tännsjö,2007-11-10 Most people including moral philosophers when faced with the fact that some of their cherished moral views lead up to the Repugnant Conclusion feel that they have to revise their moral outlook However it is a moot question as to how this should be done It is not an easy thing to say how one should avoid the Repugnant Conclusion without having to face even more serious implications from one's basic moral outlook Several such attempts are presented in this volume This is the first volume devoted entirely to the cardinal problem of modern population ethics known as The Repugnant Conclusion This book is a must for moral philosophers with an interest in population ethics

Network Economics and the Allocation of Savings Philipp Servatius,2011-10-20 This book provides a game theoretic model of interaction among VoIP telecommunications providers regarding their willingness to enter peering agreements with one another The author shows that the incentive to peer is generally based on savings from otherwise payable long distance fees At the same time termination fees can have a countering and dominant effect resulting in an environment in which VoIP firms decide against peering Various scenarios of peering and rules for allocation of the savings are considered The first part covers the relevant aspects of game theory and network theory trying to give an overview of the concepts required in the subsequent application The second part of the book introduces first a model of how the savings from peering can be calculated and then turns to the actual formation of peering relationships between VoIP firms The conditions under which firms are willing to peer are then described considering the possible influence of a regulatory body

Lecture Notes in Microeconomic Theory Ariel Rubinstein,2012-03-04 Ariel Rubinstein's well known lecture notes on microeconomics now fully revised and expanded This book presents Ariel Rubinstein's lecture notes for the first part of his well known graduate course in microeconomics Developed during the fifteen years that Rubinstein taught the course at Tel Aviv University Princeton University and New York University these notes provide a critical assessment of models of rational economic agents and are an invaluable supplement to any primary textbook in microeconomic theory In this fully revised and expanded second edition Rubinstein retains the striking originality and deep simplicity that characterize his famously engaging style of teaching He presents

these lecture notes with a precision that gets to the core of the material and he places special emphasis on the interpretation of key concepts Rubinstein brings this concise book thoroughly up to date covering topics like modern choice theory and including dozens of original new problems Written by one of the world's most respected and provocative economic theorists this second edition of Lecture Notes in Microeconomic Theory is essential reading for students teachers and research economists Fully revised expanded and updated Retains the engaging style and method of Rubinstein's well known lectures Covers topics like modern choice theory Features numerous original new problems including 21 new review problems Solutions manual available only to teachers can be found at <http://gametheory.tau.ac.il/microTheory>
