McConnell, 2008 Data Structures Theory of Computation      **Analysis of SAR Data of the Polar Oceans** Costas Tsatsoulis, Ronald Kwok, 2012-12-06 This book is a collection of the most recent and significant research on algorithms for the analysis of polar sea ice SAR data All algorithms are implemented and tested One chapter is from the Alaskan SAR Facility the major NASA archive of polar SAR data and a source of many SAR analysis algorithms including high level results of such analyses One chapter has been written jointly by the US and Canadian Ice Centers which provide e g operational sea ice products to the shipping and oil drilling industries and to polar explorations This book will be useful to all researchers in the polar sciences community      **Sustainable Agriculture Reviews** Eric Lichtfouse, 2017-07-13 This book deals with a rapidly growing field aiming at producing food and energy in a sustainable way for humans and their children It is a discipline that addresses current issues climate change increasing food and fuel prices poor nation starvation rich nation obesity water pollution soil erosion fertility loss pest control and biodiversity depletion This series gathers review articles that analyze current agricultural issues and knowledge then proposes alternative solutions      **Forthcoming Books** Rose Army, 2003      **PC Mag** , 1984-04-17 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology      **Practical Service Level Management** John McConnell, Eric D. Siegel, 2004 Measure manage and improve the speed and reliability of Web services with this complete reference for creating relevant effective Service Level Agreements Starting with an explanation of SLM and common performance metrics the book provides detailed discussions of methods to measure and improve performance      *Book Review Index* , 2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index      *Numerical Regularization for Atmospheric Inverse Problems* Adrian Doicu, Thomas Trautmann, Franz Schreier, 2010-07-16 The retrieval problems arising in atmospheric remote sensing belong to the class of the called discrete ill posed problems These problems are unstable under data perturbations and can be solved by numerical regularization methods in which the solution is stabilized by taking additional information into account The goal of this research monograph is to present and analyze numerical algorithms for atmospheric retrieval The book is aimed at physicists and engineers with some background in numerical linear algebra and matrix computations Although there are many practical details in this book for a robust and efficient implementation of all numerical algorithms the reader should consult the literature cited The data model adopted in our analysis is semi stochastic From a practical point of view there are no significant differences between a semi stochastic and a deterministic framework the differences are relevant from a theoretical point of view e g in the convergence and convergence rates analysis After an introductory chapter providing the state of the art in passive atmospheric remote sensing Chapter 2 introduces the concept of ill posedness for linear discrete equations To illustrate the difficulties associated with the solution of discrete ill posed problems we consider the temperature retrieval by

nadir sounding and analyze the solvability of the discrete equation by using the singular value decomposition of the forward model matrix
