14 November Economics Papera Level Zimsec:

Becoming Zimbabwe. A History from the Pre-colonial Period to 2008 Brian Raftopoulos, Alois Mlambo, 2009-09-15

Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008. In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe. The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re-examination. Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule, the changing contours of the political economy and the regional and international dimensions of the country's history. In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre-colonial background. Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965. The politics and economics of the UDI period and the subsequent war of liberation are covered by Joseph Mtisi Munyaradzi Nyakudya and Teresa Barnes. After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope. James Muzondidya's chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade-long crisis and the global political agreement which followed.

Kanyenze: Zimbabwe: The Link Between Politics and, 2023-03-20. In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far-reaching analysis of the socio-economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence. Kanyenze describes the various phases of the socio-economic development starting with 1980 when the people of Zimbabwe saw their hard-won independence and new democracy as a promise for a **'Progress' in Zimbabwe?** David Moore, Norma Kriger, Brian Raftopoulos, 2013-09-13. Zimbabwe's severe crisis and a possible way out of it with a transitional government and the new era for which it prepares the ground demands a coherent scholarly response. Progress can be employed as an organising theme across many disciplinary approaches to Zimbabwe's societal devastation. At wider levels too the concept of progress is fitting. It underpins modern liberal and radical perspectives of development pervading the social sciences and humanities. Yet perceptions of progress are subject increasingly to intensive critical inquiry. Their gruesome end is signified in the political projects of Robert Mugabe and ZANU PF John Gray's Black Mass Apocalyptic Religion and the Death of Utopia. It is expected that participants will engage directly in debates about how the idea of progress has informed their disciplines from political science and history to labour and agrarian studies and then relate these arguments to the Zimbabwean case in general and their research in particular. This book was published as a special issue of the Journal of Contemporary African Studies.

Challenges of African Growth B. J. Ndulu,2007 Poverty in Africa is largely the outcome of slow growth With the region hosting 10 percent of the world s population but a staggering 30 percent of the world s poor the challenges it faces are enormous but NOT insurmountable The message of this book is clear poverty eradicating development in Africa is possible In fact there are indications that Africa is at a turning point and there is growing momentum among front runner economies in the region toward higher and sustained growth This study challenges African countries and their development partners to consolidate and continue this momentum and to exploit the advantages of the continent as a latecomer particularly in innovation and in drawing lessons from successful export led growth experiences in Asia and Latin America

Challenges of African Growth identifies opportunities constraints and strategic choices that African countries face in their quest for achieving the growth necessary for poverty alleviation More important the study provides a broad menu of statergic options for ensuring not only that countries embark on a growth path but also that the growth is shared and sustainable The critical areas for action rest on four pillars the investment climate infrastructure innovation for increasing productivity and competitiveness and institutional capacity
