Arctic Human Development Report Joan Nymand Larsen, Gail Fondahl, 2015-02-18 The goals of the second volume of the AHDR Arctic Human Development Report Regional Processes and Global Linkages are to provide an update to the first AHDR 2004 in terms of an assessment of the state of Arctic human development to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade and based on this assessment to identify policy relevant conclusions and key gaps in knowledge new and emerging Arctic success stories The production of AHDR II on the tenth anniversary of the first AHDR makes it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North It addresses critical issues and emerging challenges in Arctic living conditions quality of life in the North global change impacts and adaptation and Indigenous livelihoods The assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents quality of life at both the regional and global scales It shows that the Arctic is not a homogenous region Impacts of globalization and environmental change differ within and between regions between Indigenous and non Indigenous northerners between genders and along other axes **Arctic Human Development Report** Nordic Council of Ministers, 2014 **Arctic Human Development Report** United Nations.
