

Arduino Programming Cheat Sheet

Primary source: <http://arduino.cc/en/Reference/>

Structure & Flow

Basic Program Structure

```
void setup() {  
  // Runs once when sketch starts  
}  
  
void loop() {  
  // Runs repeatedly  
}
```

Control Structures

```
if (x < 5) { ... } else { ... }  
while (x < 5) { ... }  
for (int i = 0; i < 10; i++) { ... }  
break; // Exit a loop immediately  
continue; // Go to next iteration  
switch (var) {  
  case 1:  
    ...  
  break;  
  case 2:  
    ...  
  break;  
  default:  
    ...  
}  
return x; // x must match return type  
return; // For void return type
```

Function Definitions

```
int, type, name(parameters) { ... }  
e.g. int double(int x) {return x*2;}
```

Operators

General Operators

- assignment
- add + subtract -
- multiply * divide /
- modulo %
- == equal to != not equal to
- < less than > greater than
- <= less than or equal to
- >= greater than or equal to
- == and || or
- ! not

Compound Operators

- ++ increment
- decrement
- + compound addition
- compound subtraction
- * compound multiplication
- / compound division
- % compound modulus and
- & compound bitwise and

Bitwise Operators

- & bitwise and
- | bitwise or
- ^ bitwise xor
- ~ bitwise not
- << shift left
- >> shift right

Pointer Access

- & reference: get a pointer
- * dereference: follow a pointer

Built-in Functions

Pin Input/Output

```
digital I/O - pins 0-13 AH-AJ  
pinMode(pin,  
  [INPUT, OUTPUT, INPUT_PULLUP])  
int digitalWrite(pin,  
  digitalWrite(pin, [HIGH, LOW])
```

Analog I/O - pins AH-AJ

```
int analogRead(pin)  
analogReference(  
  [DEFAULT, INTERNAL, EXTERNAL])
```

Pulse-Width Modulation - pins 2-5 & 9-10

```
analogWrite(pin, value)
```

Advanced I/O

```
tone(pin, freq_hz)  
noTone(pin, freq_hz, duration_ms)  
noTone(pin)  
shiftOut(dataPin, clockPin,  
  [MSB0FIRST, LSB0FIRST], value)  
unsigned long shiftIn(pin,  
  [MISO, MOSI])
```

Time

```
unsigned long millis()  
// Overflows at 50 days  
unsigned long micros()  
// Overflows at 70 minutes  
delay(ms)  
delayMicroseconds(us)
```

Math

```
sin(x, y) sin(x, y) sin(x)  
sin(rad) cos(rad) tan(rad)  
exp(x) pow(base, exponent)  
constrain(x, lowest, highest)  
map(val, fromLow, fromHigh, toLow, toHigh)
```

Random Numbers

```
randomSeed(seed) // long or int  
long random(max) // 0 to max-1  
long random(min, max)
```

Bits and Bytes

```
lowByte(x) highByte(x)  
bitRead(x, bit)  
bitWrite(x, value, bit)  
bitSet(x, bit)  
bitClear(x, bit)  
bitWrite(x, bit)  
bitRead(x, bit)
```

Type Conversions

```
char(val) byte(val)  
int(val) word(val)  
long(val) float(val)
```

External Interrupts

```
attachInterrupt(interupt, func,  
  [LOW, CHANGE, RISING, FALLING])  
detachInterrupt(interupt)  
interrupts()  
noInterrupts()
```

Libraries

```
Serial - coms, with PC or via RS485  
begin(long speed) // up to 115200  
end()  
int available() // bytes available  
int read() // -1 if none available  
int peek() // Read w/o removing  
flush()  
print(data) println(data)  
write(byte) write(char * string)  
write(byte * data, size)  
SerialEvent() // Called if data rdy
```

```
SoftwareSerial.h - coms, on any pin  
SoftwareSerial(rxPin, txPin)  
begin(long speed) // up to 115200  
listen() // delay 0 sec listen  
isListening() // at a time  
read, peek, print, println, write  
// Inherited to Serial library
```

```
EEPROM.h - access non-volatile memory  
byte read(addr)  
write(addr, byte)  
EEPROM[addr] // Access as array
```

```
Servo.h - control servo motors  
attach(pin, [min_us, max_us])  
write(angle) // 0 to 180  
writeMicroseconds(us)  
// 1000-2000, 1500 is midpoint  
int read() // 0 to 180  
bool attached()  
detach()
```

```
Wire.h - I2C communication  
begin() // Join a master  
begin(addr) // Join a slave @ addr  
requestFrom(addr, count)  
beginTransmission(addr) // Step 1  
send(byte) // Step 2  
send(char * string)  
send(byte * data, size)  
endTransmission() // Step 3  
int available() // Bytes available  
byte receive() // Get next byte  
onReceive(handler)  
onRequest(handler)
```

Variables, Arrays, and Data

Data Types

Type	Value
boolean	true false
char	-128 - 127, 'a' 'b' etc.
unsigned char	0 - 255
byte	0 - 255
int	-32768 - 32767
unsigned int	0 - 65535
word	0 - 65535
long	-2147483648 - 2147483647
unsigned long	0 - 4294967295
float	-3.4028235E+38 - 3.4028235E+38
double	currently same as float
void	1.e.g. no return value

Strings

```
char str[8] =  
  {'A','B','C','D','E','F','G','H'};  
// Includes null terminator  
char str[8] =  
  {'A','B','C','D','E','F','G','H'};  
// Compiler adds null terminator  
char str[] = "Arduino"  
char str[8] = "Arduino"
```

Numeric Constants

Value	Description
128	decimal
0x01158B1	hexary
0x71	octal - base 8
0x7F	hexadecimal - base 16
128L	force unsigned
128LL	force long
128LL	force unsigned long
128.f	force floating point
1.234E+6	1.2375E+6 = 1237500

Qualifiers

Qualifier	Description
static	persists between calls
volatile	in RAM (value for I/O)
const	read-only
mutable	in flash

Arrays

```
int myData[] = {0, 4, 8, 1, 4};  
int myData[5]; // Array of 5 ints  
myData[0] = 40; // Assigning first  
// Index of myData  
myData[4] = 10; // 00000 Indexes  
// are 0 through 4
```

Arduino Programming Guide

Ryan Turner

Arduino Programming Guide:

Arduino Programming Damon Parker, Are you new to Arduino programming Would you like to expand your knowledge base about Arduino programming Do you desire to enjoy the fantastic features of Arduino technology If you said YES to any or all of the questions above this book is all you need Starting Arduino programming allows you to rapidly and intuitively develop your programming abilities through sketching in code This book provides you with an understanding of the standard structure for developing Arduino code including the functions syntax structure and libraries needed to produce future tasks It is specifically written to help you get the understanding required to master the fundamental aspects of writing code on the Arduino platform and will have you all set to take the next step to explore new project ideas new kinds of hardware and contribute back to the open source community and even take on more programming projects With this book you can go from an Arduino beginner to an Arduino pro in a much shorter time This is a resource book to get started with if you want to find out about the world of Arduino and how it changes the world we live in This book will help you comprehend the basic principles of Arduino its advantages benefits and applications in numerous markets and platforms Completely simplified for easy understanding this bestselling guide explains how to compose well crafted sketches using Arduino s modified C language You will discover how to configure software and hardware develop your own sketches deal with built in and custom made Arduino libraries and check out the Internet of Things all with no prior programming experience required It teaches you everything you require to become proficient in Arduino from scratch Learn the variants in Arduino find out how to select Arduino boards and their technical specs learn how to install Arduino IDE That s what you ll find What Is Arduino Programming Introduction to Arduino Programming Language How to Configure Arduino Why Arduino The Arduino KIT Arduino Board Description Arduino Program Structure Arduino Variables and Constants String Arrays Character Manipulating String Arrays Functions to Manipulate String Arrays Arduino String Object Stating Arrays Pins Configured as INPUT Benefits and Disadvantages of Identical Communication And a lot more You will also find out how to configure your Arduino interface board to pick up the physical world control light movement and sound and create objects with interesting features This ultimate guide gets you up to speed quickly teaching all the concepts and syntax through simple language and clear guidelines developed for outright beginners It contains lots of top quality illustrations and easy to follow examples Are you ready to explore the amazing benefits of this book Grab your copy now **Arduino Programming** Ryan Turner,2020-04-12 Are you looking for a simple programming language that will allow you to develop your computer skills Have you heard about Arduino and think it could be right for you Do you need a straight talking book that will help you get started quickly For anyone who wants to enter the world of computer programming a decent programming language that is easy to understand is usually a good place to start Arduino Programming delivers a step by step lesson on a simple platform that is perfect for anyone who wants to become skilled in this language and put it to good use Inside the pages of Arduino

Programming The Ultimate Expert Guide to Learn Arduino Programming Step by Step you will find clear explanations on the subject through chapters that will help you with Understanding the basic principles behind Arduino How you can develop your skills quickly and efficiently Step by step programming advice Using Arduino to enhance your projects Where Arduino fits in to the Internet of Things And a whole lot more Filled with clear and concise explanations that are easy to follow for beginners visualizations to help you gain a quicker understanding of the processes and examples of where Arduino will fit in with your needs Arduino Programming is the ultimate expert guide that will deliver exactly what you want Scroll up and click Add to Cart for your copy now *Arduino Programming* Ryan Turner,2020-04-18 Are you ready to take your programming to the next level Are you already using Arduino and like the way it works Do you want to be able to build more powerful projects and applications Arduino is one of those programming languages that offers you much more than you expected at every stage you reach It provides effective tools that really work and can have you doing complex tasks quickly with its hands on approach Now with Arduino Programming The Ultimate Intermediate Guide to Learn Arduino Programming Step by Step you can take the next step on your Arduino journey and increase your knowledge and skills further with chapters on Getting the most from Arduino Functions calculations and tables Linking the physical to the virtual Coupling and multiplexing How to digitalize sound Advanced techniques Networking And more With its combination of theory and practical advice Arduino Programming is the stand out book when it comes to building on your basic understanding of this fantastic programming resource Get a copy today and enhance your knowledge while building ever more complex applications for your computer

Arduino Programming Rama Nolan,2025-02-02 Master Arduino Programming A Hands On Guide to Electronics and Coding Have you ever wanted to control switches LEDs sensors and more with just a few lines of code without the hassle of replacing an entire circuit when something goes wrong Arduino is the ultimate platform for building electronic projects trusted by beginners and experts alike for its simplicity flexibility and affordability With its microcontroller based board you can create modify and experiment with ease Whether you re designing interactive gadgets automating tasks or learning to code hardware Arduino makes it accessible But here s the challenge many beginners struggle because they lack clear step by step guidance They either try to figure it out alone and get frustrated or follow confusing tutorials that don t explain the fundamentals properly That s where this book comes in Designed for complete beginners this hands on guide breaks down Arduino programming in a simple practical way You ll learn How to set up your Arduino board and understand its components The basics of coding with Arduino and writing your first program How to control LEDs sensors motors and other components effortlessly Troubleshooting techniques so you can fix issues without replacing your board How to bring your own creative electronics projects to life Don t let confusion or lack of experience stop you from mastering Arduino Whether you re a hobbyist student or aspiring engineer this book will equip you with the knowledge and confidence to start coding and building right away Unlock the power of Arduino and turn your ideas into reality get started today **Arduino** Miles

Price,2018-04-18 Heads up it s the twenty first century It s easier than ever to make your own gadgets The Arduino is a hardware and software package that allows you to create your own gadgets from scratch It s essentially a microcomputer that you can hook all sorts of neat things up to and that you can make full fledged projects out of Programming your Arduino projects isn t terribly difficult but there are a lot of underlying concepts that you need to grasp if you really want to propel yourself forward as a programmer You re going to be working with pretty low level concepts so it s important that you familiarize yourself with all of these before you jump into Arduino programming Take action today to take advantage of our limited time offer *Programming Arduino* Upskill Learning,2016-11-10 Learn Arduino Programming in Less Than 24 Hours This book Programming Arduino Beginners Guide To Get Started With Internet Of Things will teach you to become an Arduino Master through proven step by step programming guide This book teaches you everything you need to become proficient in Arduino from scratch Learn the variants in Arduino learn how to select Arduino boards and their technical specifications learn how to install Arduino IDE and the complete programming manual to learn Arduino Programming and getting started with Your Own Project What You ll Learn From This Book Introduction to Arduino Programming Chapter 1 Arduino Chapter 2 Variants in Arduino Chapter 3 Arduino Boards Technical Specifications Chapter 4 Guide To Board selection Chapter 5 Step by step guide to Installing IDE Chapter 6 Get Started With Arduino Programming Chapter 7 Real time Examples for Arduino programming Chapter 8 Project Chapter 9 Moving Toward A Smarter Internet The Internet Of Things Chapter 10 Sculpting Your Career In IOT Learn how to use the Arduino to build Internet of Things IoT projects Using this book you can go from Arduino Beginner to Arduino Pro in a shorter time If you want to learn about the world of IOT and how it changes the world we live in this is a resource book to get started with This book will help you understand the basic concepts of IOT its benefits advantages and applications in various industries starting from Home Automation to Healthcare Monitoring to Industrial Transformation *Arduino Projects* Sivakumar Munusami,2019-10-04 Buy the Paperback Version of this Book and get the Kindle Book version for FREE Are you tired of trying to learn Arduino DIY Programming Can t you find a good way to learn Arduino DIY Projects Would you like to learn Arduino DIY Programming quickly If so continue reading this For everyone who wants to learn Arduino this book is very helpful This book is designed to fulfill your purpose Arduino s latest information is included in this book All of the information in this book is trustworthy If you buy this book you will definitely know about the Arduino DIY Programming It is definitely worth the oney and the time you spend By the time you read the last page of this book you will have become a talented Arduino Programmer Overall this book will be a treasure for you Now with this new and informative guide Arduino projects The Ultimate Beginner s Guide to Learn DIY Arduino Programming you can learn all you need to get you started with this impressive resource with chapters that delve into In our book you will find such important details as What is Arduino Board Five Type of Microcontroller Four Type of Arduino Board Parts of Arduino Uno Board Download the Arduino Software IDE Install Arduino Software IDE Arduino IDE Basic Structure

Sketch Conditionals Loops Arduino Functions Input output Useful Functions Type of Sensors Type of Motors What is Arduino Library 10 Arduino DIY Programming And lots more Download your copy of Arduino by scrolling up and clicking Buy Now button

Arduino Programming Daniel Geron,2021-03-09 Are you looking for an easy way to learn programming one that can help you to really work on some strong programs and applications but will be easy enough for a beginner to understand Have you looked at some of the other options out there and feel like they are too in depth or hard to use for some of the basics that you want to know Have you been able to look at some of the circuit boards out there but they are not powerful enough or will not work with the operating system that you like to use There are a lot of people who want to work with coding and programming but they are stopped for one reason or another It is too hard they don t have the experience it doesn t work with the coding they want to do and so on This is where the Arduino technology can come into play and help us to finally learn some of the coding that we want This technology was actually designed for the beginner for those who have no technical experience at all to help them get a good grasp on the basics of coding This guidebook is going to explore more about this Arduino technology and how we are able to use it for our own needs Some of the topics that we are going to explore will include What the Arduino technology is all about and how even beginners are able to learn with it in no time Some of the benefits of working with this technology What types of boards are available for us to purchase and use based on the programming needs that we have How to get started with this language by learning some of the common terms that will help guide us through this process How to hook up the board to your computer so you can get started How to turn this board into a machine that is able to work on various projects Understanding how to work with a sketch and even some examples of how you can create some of your own sketches as well The basics of creating a basic user based function for your coding A look at the different functions that we are able to use in the Arduino language and what they all mean How to work with the Arduino API and some of the functions that help bring more power to this And so much more There are a lot of options out there when you are looking to get started with coding But if you are brand new to the process you may worry that they are going to be too hard and too difficult to focus on and get the results that you would like When you are ready to learn how to work with Arduino a system that was designed with the beginner and non technical person in mind make sure to check out this guidebook to help you get started

Arduino Programming Daniel Geron Geron,2019-11-13 Are you looking for an easy way to learn programming one that can help you to really work on some strong programs and applications but will be easy enough for a beginner to understand Have you looked at some of the other options out there and feel like they are too in depth or hard to use for some of the basics that you want to know Have you been able to look at some of the circuit boards out there but they are not powerful enough or will not work with the operating system that you like to use There are a lot of people who want to work with coding and programming but they are stopped for one reason or another It is too hard they don t have the experience it doesn t work with the coding they want to do and so on This is where the Arduino technology can

come into play and help us to finally learn some of the coding that we want This technology was actually designed for the beginner for those who have no technical experience at all to help them get a good grasp on the basics of coding This guidebook is going to explore more about this Arduino technology and how we are able to use it for our own needs Some of the topics that we are going to explore will include What the Arduino technology is all about and how even beginners are able to learn with it in no time Some of the benefits of working with this technology What types of boards are available for us to purchase and use based on the programming needs that we have How to get started with this language by learning some of the common terms that will help guide us through this process How to hook up the board to your computer so you can get started How to turn this board into a machine that is able to work on various projects Understanding how to work with a sketch and even some examples of how you can create some of your own sketches as well The basics of creating a basic user based function for your coding A look at the different functions that we are able to use in the Arduino language and what they all mean How to work with the Arduino API and some of the functions that help bring more power to this And so much more There are a lot of options out there when you are looking to get started with coding But if you are brand new to the process you may worry that they are going to be too hard and too difficult to focus on and get the results that you would like When you are ready to learn how to work with Arduino a system that was designed with the beginner and non technical person in mind make sure to check out this guidebook to help you get started Would you like to know more Scroll to the top of the page and select the BUY NOW button

[Arduino for Beginners](#) Ethan Thorpe,2019-07-19 Quite a few technology boards are responsible for building digital devices They are actually the bedrock of how these devices function However Arduino boards are making immense waves in the digital production world nowadays as it is now primarily used for creating digital devices as well as other interactive materials with the capacity to control things physically around the human sphere To make things more clear this book will enlighten the readers to know more about what Arduino is all about and encourage the best practices for learning and executing Arduino programming from scratch This book will be a pathway where you ll learn everything you need to know about Arduino programming step by step Some of the few things you will be learning about Arduino in this book include Arduino s software and hardware as well as several others of the applications that you will be able to make use of in and about the Arduino board Different Arduino data types available Strings and Functions Codes for buildup Arrays and sensors Important necessities to remember so you can avoid making mistakes And a whole lot more This expansive book on Arduino programming for beginners is laced with quite a lot of useful information that will guide the readers throughout their Arduino programming journey holding you by hand and explaining in specific detail including visual aids to guide you So what are you waiting for Go get a copy now

Thank you utterly much for downloading **Arduino Programming Guide**. Most likely you have knowledge that, people have seen numerous times for their favorite books considering this Arduino Programming Guide, but end occurring in harmful downloads.

Rather than enjoying a good book considering a mug of coffee in the afternoon, instead they juggled following some harmful virus inside their computer. **Arduino Programming Guide** is easy to get to in our digital library an online entrance to it is set as public for that reason you can download it instantly. Our digital library saves in fused countries, allowing you to acquire the most less latency times to download any of our books later than this one. Merely said, the Arduino Programming Guide is universally compatible like any devices to read.

Arduino Programming Guide Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Arduino Programming Guide PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing

financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Arduino Programming Guide PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Arduino Programming Guide free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Arduino Programming Guide Books

What is a Arduino Programming Guide PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Arduino Programming Guide PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Arduino Programming Guide PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Arduino Programming Guide PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Arduino Programming Guide PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are

there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
