

Aquatic Exam Study Guide

Dave Palmer - Extension Agent - Hillsborough County Extension Service - 06/2006

A little thoughtful preparation will go a long way towards passing the Aquatic exam. The manual used for this exam is called the "Aquatics Manual." This is not an easy exam to study for because there are no study questions at the back of each chapter of the manual.

What's on the exam?

The Aquatic Exam consists of 50 multiple choice questions broken down as follows:

- 24 questions on basic aquatics - from the Aquatic Pest Control Manual
- 4 aquatic plant ID questions - from the Aquatic Pest Control Manual
- 13 math questions - some similar examples are in the manual
- 9 questions concerning label interpretation.

To prepare for the exam:

- 1) Read the manual thoroughly.
- 2) Read this Aquatic Exam Study Guide, including the vocabulary.
- 3) Review the formulas to make sure you understand how they work.
- 4) Work all the math questions.
- 5) When you get to the label section, read the following label carefully and become familiar with what information is on the label and where it is located. The questions in this study guide are similar to those on the exam. Use the label to find the answers. Looking up the answers to the following questions will also provide good practice for the exam.
- 6) Look up the following information on the label provided:
 - Identify the active ingredient.
 - Identify the signal word.
 - Determine if there are restrictions on who the product can be sold to.
 - Determine if the product can be legally used: indoors, outdoors, both indoors and outdoors, or neither indoors and outdoors
 - Determine what to do if the product is accidentally swallowed. Do you induce vomiting or not?
 - Read the environmental hazards statement. Determine which sites or types of animals the applicator should either be cautious of or not use the product near.
