Abstract— Arabic Language is the mother tongue for 23 countries and more than 350 million persons. It is the language of the Holy Quran; therefore, many non-Arabic Islamic countries, like Pakistan, teach Arabic as a second language. Nevertheless, it is observable that the Arabic content on the Web is less than what should be. The evolution of the Semantic Web (SW) added a new dimension to this problem. This paper is an attempt to figure out the problem, its causes, and to open avenues to think about the solutions. The survey presented in this paper concerned with the SW applications regarding the Arabic Language in the domains of Ontology construction and utilization, Arabic WordNet (AWN) exploiting and enrichment, Arabic Named Entities Extraction, Holy Quran and Islamic Knowledge semantic representation, and Arabic Semantic Search Engines. In fact, the study revealed serious deficiencies in dealing semantically with the Arabic Language. That is mainly owing to the rarity of tools that can support the Arabic script. Furthermore, the Arabic resources, if available, are not free. Moreover, there are many technical problems in the semantic dealing with the Arabic context. Therefore, most of the developed applications are not sufficiently proficient. However, due to the significance of the Arabic Language, it is inevitable to overcome these deficiencies in order to put the Arabic Language in the category of the machine-semantically-interpretable languages, rather than just the textually-processable ones. This way, we can exploit the power of the Semantic Web features in extracting the essence of the knowledge residing in the Arabic web documents and going beyond dealing with its rigid texts.

Index Terms— Semantic Web (Web 3.0), Arabic Language, Islamic Knowledge, Named Entity Extraction (NEE), Semantic Search Engine (SSE)

I. INTRODUCTION

The term 'Semantic Web' was coined by Tim Berners-Lee, the inventor of the World Wide Web and the director of the World Wide Web Consortium ("W3C"), which oversees the development of proposed Semantic Web standards. Tim Berners-Lee defined the Semantic Web as "a web of data that can be processed directly and indirectly by machines." He originally expressed the vision of the Semantic Web as follows: "To a computer,

the Web is a flat, boring world devoid of meaning. A new form of Web content that is meaningful to computers will unleash a revolution of new possibilities. The Semantic Web (SW) is not a separate Web but rather an extension of the current one, in which information is given well-defined meaning. Adding semantics to the Web involves allowing documents which have information in machine-readable forms and allowing links to be created with relationship values" [1; 2]. SW, therefore, can enhance the currently existing Web by the interposition of a machine interpretable layer that holds the metadata of the Web document. This metadata will allow computer software to understand what the Web page is about, and thus draw conclusions about it. This revolutionary invention can be utilized by software agents, so the information can easily be found, shared, integrated, and exchanged [3; 4].

An expected contribution of the Semantic Web technology, if it becomes satisfactorily actuated over the World Wide Web, is to extremely enhance the extractability, exchangeability, and hence growth of knowledge on the Web regardless of its rationality, language and expression style. That can be achieved due to the utilization of a unified representation of the concepts in a standard machine interpretable language regardless of the native language of the user [5; 6; 7]. It is therefore vital for all natural languages, especially those that have a broad base of users, to be supported by the SW tools and applications. Among these natural languages is the Arabic Language. Besides that the Arabic is the language of a significant number of people; it is one of the strongest, richest and most languages able to articulate in the world. The SW, likewise, is the strongest technology that emerged in the field of Web till now. Thus, the integration of these two giants yields a capability that cannot be erudited.

This survey reviews the studies that addressed the Arabic Language and made efforts in order to support it in the environment of the SW. The reviewed studies were grouped thematically in four groups, each of which addressing an essential aspect of developing an Arabic SW application, which are the Arabic Ontologies development and utilization, the Arabic Named Entities Extraction (ANEE), the Islamic Knowledge Semantic

Arabic Language And Semantic Web:

Arabic Language and Semantic Web Aya Al-Zoghby, 2014-11-26 This is a study that aims to study the ability of applying the Semantic Web features on the Arabic Texts benefits challenges and state of the art develop an advanced Arabic Semantic Search System able to semantically handle the Arabic texts efficiently apply the developed system on the full version of the Arabic Wikipedia in five progressive modes each of which represents a level of enhancement evaluate the performance of the proposed system by applying the five modes on particular query and comparing the results of them propose suggestions for the future expansion of the have been reached results

Intelligent Systems in Big Data, Semantic Web and Machine Learning Noredine Gherabi, Janusz Kacprzyk, 2021-05-28 This book describes important methodologies tools and techniques from the fields of artificial intelligence basically those which are based on relevant conceptual and formal development The coverage is wide ranging from machine learning to the use of data on the Semantic Web with many new topics The contributions are concerned with machine learning big data data processing in medicine similarity processing in ontologies semantic image analysis as well as many applications including the use of machine leaning techniques for cloud security artificial intelligence techniques for detecting COVID 19 the Internet of things etc The book is meant to be a very important and useful source of information for researchers and doctoral students in data analysis Semantic Web big data machine learning computer engineering and related disciplines as well as for postgraduate students who want to integrate the doctoral cycle

The Semantic Web - ISWC 2025 Daniel Garijo, Sabrina Kirrane, Angelo Salatino, Cogan Shimizu, Maribel Acosta, Andrea Giovanni Nuzzolese, Sebastián Ferrada, Thibaut Soulard, Kouji Kozaki, Hideaki Takeda, Anna Lisa Gentile, 2025-10-28 This two volume set constitutes the proceedings of the 24th International Semantic Web Conference ISWC 2025 held in Nara Japan during November 2 6 2025 The 60 full papers included in these volumes were carefully reviewed and selected from 277 submissions These papers address theoretical analytical and empirical aspects of the Semantic Web promote the sharing of resources that support enable or utilize semantic web research and describe applied research as well as software tools systems or architectures that benefit from the use of Semantic Web and Knowledge Graph technologies

Intelligent Natural Language Processing: Trends and Applications Khaled Shaalan, Aboul Ella Hassanien, Fahmy Tolba, 2017-11-17 This book brings together scientists researchers practitioners and students from academia and industry to present recent and ongoing research activities concerning the latest advances techniques and applications of natural language processing systems and to promote the exchange of new ideas and lessons learned Taken together the chapters of this book provide a collection of high quality research works that address broad challenges in both theoretical and applied aspects of intelligent natural language processing The book presents the state of the art in research on natural language processing computational linguistics applied Arabic linguistics and related areas New trends in natural language processing systems are rapidly emerging and finding application in various domains including education travel and

tourism and healthcare among others Many issues encountered during the development of these applications can be resolved by incorporating language technology solutions The topics covered by the book include Character and Speech Recognition Morphological Syntactic and Semantic Processing Information Extraction Information Retrieval and Question Answering Text Classification and Text Mining Text Summarization Sentiment Analysis Machine Translation Building and Evaluating Linguistic Resources and Intelligent Language Tutoring Systems Computational Linguistics and Intelligent Text Processing Alexander Gelbukh, 2015-04-09 The two volumes LNCS 9041 and 9042 constitute the proceedings of the 16th International Conference on Computational Linguistics and Intelligent Text Processing CICLing 2015 held in Cairo Egypt in April 2015 The total of 95 full papers presented was carefully reviewed and selected from 329 submissions They were organized in topical sections on grammar formalisms and lexical resources morphology and chunking syntax and parsing anaphora resolution and word sense disambiguation semantics and dialogue machine translation and multilingualism sentiment analysis and emotion detection opinion mining and social network analysis natural language generation and text summarization information retrieval question answering and information extraction text classification speech processing and applications **The Semantic Web** Eva Blomqvist, Diana Maynard, Aldo Gangemi, Rinke Hoekstra, Pascal Hitzler, Olaf Hartig, 2017-05-15 The two volumes LNCS 10249 and 10250 constitute the refereed proceedings of the 14th International Semantic Web Conference ESWC 2017 held in Portoro Slovenia The 51 revised full papers presented were carefully reviewed and selected from 183 submissions In addition 10 PhD papers are included selected out of 14 submissions The papers are organized in the following tracks semantic data management big data and scalability linked data machine learning mobile web sensors and semantic streams natural language processing and information retrieval vocabularies schemas and ontologies reasoning social web and web science semantic web and transparency in use and industrial track and PhD symposium The paper Linked Data Notifications A Resource Centric Communication Protocol is published open access under a CC BY 4.0 license at link.springer.com The International Conference on Advanced Machine Learning Technologies and Applications (AMLTA2019) Aboul Ella Hassanien, Ahmad Taher Azar, Tarek Gaber, Roheet Bhatnagar, Mohamed F. Tolba, 2019-03-16 This book presents the peer reviewed proceedings of the 4th International Conference on Advanced Machine Learning Technologies and Applications AMLTA 2019 held in Cairo Egypt on March 28-30 2019 and organized by the Scientific Research Group in Egypt SRGE The papers cover the latest research on machine learning deep learning biomedical engineering control and chaotic systems text mining summarization and language identification machine learning in image processing renewable energy cyber security and intelligence swarms and optimization **Arabic Language Processing: From Theory to Practice** Kamel Smaili, 2019-10-04 This book constitutes revised selected papers from the 7th International Conference on Arabic Language Processing ICALP 2019 held in Nancy France in October 2019 The 21 full papers presented in this volume were carefully reviewed and selected from 38 submissions They were organized in topical

sections named Arabic dialects and sentiment analysis neural techniques for text and speech modeling modern standard Arabic resources analysis disambiguation and evaluation Data Science And Knowledge Engineering For Sensing Decision Support - Proceedings Of The 13th International Flins Conference Jun Liu,Jie Lu,Yang Xu,Luis Martinez,Etienne E Kerre,2018-07-30 FLINS originally an acronym for Fuzzy Logic and Intelligent Technologies in Nuclear Science is now extended to include Computational Intelligence for applied research The contributions of the FLINS conference cover state of the art research development and technology for computational intelligence systems with special focuses on data science and knowledge engineering for sensing decision support both from the foundations and the applications points of view An Arabic Semantic Web Model Khalid Ayed B. Alharthi,OhioLINK Electronic Theses and Dissertations Center,2013 As time passes the web continues to grow and become more beneficial for people all around the world However all the intelligent tasks are still done by humans such as aggregating linking and reasoning The Inventor of the web Tim Berners Lee has again come up with a new vision to restructure the web in such a way that lets the machines play a more influential role This new vision is called the Semantic Web The Semantic Web is a collection of integrated technologies that allow machines to understand the information they are presented with Since there is not a sufficient Semantic Web model for the Arabic web and since the majority of existing tools and applications of the Semantic Web do not support the Arabic language the Arabic web is a good target for developmental research aimed at providing an Arabic Semantic Web model This model will describe how Arabic data are stored the format used to represent that data with semantics and ontologies defining areas of knowledge through common vocabulary terms This model will result in a revolutionized web agent able to discover new knowledge by conducting reasoning and queries on published Arabic semantic data

The Enigmatic Realm of **Arabic Language And Semantic Web**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Arabic Language And Semantic Web** a literary masterpiece penned by a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those who partake in its reading experience.

Arabic Language And Semantic Web Introduction

Arabic Language And Semantic Web Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Arabic Language And Semantic Web Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Arabic Language And Semantic Web : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Arabic Language And Semantic Web : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Arabic Language And Semantic Web Offers a diverse range of free eBooks across various genres. Arabic Language And Semantic Web Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Arabic Language And Semantic Web Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Arabic Language And Semantic Web, especially related to Arabic Language And Semantic Web, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Arabic Language And Semantic Web, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Arabic Language And Semantic Web books or magazines might include. Look for these in online stores or libraries. Remember that while Arabic Language And Semantic Web, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Arabic Language And Semantic Web eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Arabic Language And Semantic Web full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based

access to a wide range of Arabic Language And Semantic Web eBooks, including some popular titles.

FAQs About Arabic Language And Semantic Web Books

What is a Arabic Language And Semantic Web PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Arabic Language And Semantic Web PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Arabic Language And Semantic Web PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Arabic Language And Semantic Web PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Arabic Language And Semantic Web PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
