Frontiers in Environmental Science - Editor's Picks 2021 Martin Siegert, 2021-11-24 **Contested Karoo: Interdisciplinary perspectives on change and continuity in South Africa's drylands** Cherryl Walker, M Timm Hoffman, 2024-05-15 This interdisciplinary collection explores significant land use changes in South Africa's semi arid Karoo region and their implications for social justice and the environment across different scales. It brings together recent scholarship by established and younger researchers in both the social and the natural sciences to examine the ways in which the Karoo is being reconfigured as a new resource frontier and the tensions and contestations that result. Along with ongoing mining major investments in astronomy notably the Square Kilometre Array radio telescope in renewable and non renewable sources of energy solar wind potential shale gas mining in biodiversity conservation and commercial game farming are reshaping land use and authority in this vast and long marginalised area. While promising significant benefits to society at large these developments are built on older histories of dispossession and extractivism histories that many Karoo residents fear are being reproduced in new forms today. Collectively these dynamics place this unique region at the centre of national and global concerns around climate change the politics of knowledge production the conservation of threatened biodiversity and the meaning and possibility of sustainable development. These issues are explored through a series of case studies of selected developments complemented by chapters providing more historical context and general overviews. While challenging perceptions of this region as a peripheral wasteland this collection raises conceptual and policy questions that resonate far beyond the Karoo itself. It also highlights the importance of interdisciplinary collaboration in research aimed not only at understanding but also at responding appropriately to the mounting challenges of our time. *Empowering Women in Academia: Improving Methods, Practices, and Approaches for Change and Transformation (IMPACT)* Kincade, Lolita L., Brossette, Alicia, Lacy, Constance, Benjamin, Crystal, 2025-03-07 Empowering women in academia is essential for fostering diversity equity and inclusion within educational institutions.
