The Meaning of Shared Value Paolo Ricci, Patrick O'Sullivan, Floriana Fusco, 2023-06-20 The concept of Creating Shared Value CSV creating economic value in a way that also creates value for the whole of society has risen in prominence as a corporate policy and a strategy in recent years mainly for third sector or development organisations However while it has received considerable interest among business leaders and practitioners it has also sparked a bitter debate among academics proponents and sceptics of the idea Starting from this argument the book develops a meta critical examination of the hidden

presuppositions of both supporters and critics of Creating Shared Value particular in relation to the concept of value It is argued that there are not two separate types of value i e an economic value and a social value but only a unique one which essentially means the creation of well being If anything the distinction that is drawn relates to the value capture how the value created is distributed among different stakeholders and not to value creation additions to potential well being since the notion of value itself is univocal Behind the debate are two implicit opposed viewpoints on the philosophy of history an antagonistic pessimistic and a cooperative optimistic view The authors are thus led to a discussion of which of the two visions appears to be the most rational in today s world The book is addressed to readers with an interest in the core concept of value primarily in economics strategic management and philosophy
