

ASSETS

Assets are resources owned by a business that have economic value. They are the result of investments made by the business or its owners. Assets are recorded on the balance sheet and are classified into current assets and non-current assets.

- **Current Assets:** These are assets that are expected to be converted into cash or sold within the next 12 months. Examples include cash, accounts receivable, inventory, and prepaid expenses.
- **Non-current Assets:** These are assets that are not expected to be converted into cash or sold within the next 12 months. Examples include property, plant, and equipment, and intangible assets like patents and trademarks.

Assets are measured at their fair value, which is the price that would be received from the sale of an asset in an orderly transaction between market participants at the measurement date.

LIABILITIES

Liabilities are obligations of a business that are expected to result in an outflow of resources. They are the result of borrowing from others or the business's own operations. Liabilities are recorded on the balance sheet and are classified into current liabilities and non-current liabilities.

- **Current Liabilities:** These are liabilities that are expected to be settled within the next 12 months. Examples include accounts payable, short-term debt, and accrued liabilities.
- **Non-current Liabilities:** These are liabilities that are not expected to be settled within the next 12 months. Examples include long-term debt and deferred tax liabilities.

Liabilities are measured at their fair value, which is the price that would be received from the sale of a liability in an orderly transaction between market participants at the measurement date.

RETAINED EARNINGS

CONTRIBUTED CAPITAL

Contributed Capital represents the amount of capital that has been contributed by the owners of the business. It is recorded on the balance sheet and is classified into common stock and preferred stock.

- **Common Stock:** This is the most basic form of equity. It represents the ownership of the business and is typically sold at a fixed price.
- **Preferred Stock:** This is a type of equity that has certain rights and privileges, such as the right to receive dividends before common stock.

RETAINED EARNINGS

Retained Earnings represent the portion of a company's profits that are retained within the company rather than being distributed to shareholders as dividends. They are recorded on the balance sheet and are classified into accumulated profits and dividends or drawings.

- **Accumulated Profits:** These are the profits that have been retained by the company and are available for reinvestment or distribution.
- **Dividends or Drawings:** These are the amounts that have been paid out to shareholders or withdrawn by the owners.

EQUITY

Equity represents the ownership interest in a business. It is the sum of contributed capital and retained earnings. Equity is recorded on the balance sheet and is classified into common equity and preferred equity.

- **Common Equity:** This is the equity that is owned by common shareholders. It includes common stock and retained earnings.
- **Preferred Equity:** This is the equity that is owned by preferred shareholders. It includes preferred stock and any dividends that have been accumulated but not yet paid.
