MSF RECEPTION DIFFICULTIES

Like any receiver your clock needs a good signal to work properly. The main causes of reception failure are...

- Atmospheric and local interferences.
- Interference from electrical equipment e.g. TV, computers or radios.
- Location of the clocks internal receiver within the building.
- Reduced local signal due to steel framed structures.
- Outside the normal transmission.

The following suggestion may help improve reception of the MSF signal:

Check that the battery/ies are new and in good condition.
 Check that the battery/ies are inserted correctly.
 Try rotating the clock as the internal receiver that picks up the signal is most effective when it is facing directly towards or away from Anthorn.

Try moving your clock to a new location away from any electrical equipment e.g. TV, computer or radios, and start the set up again or remove the battery/ies and insert again after 5:30pm. Due to local interference the signal is stronger between midnight & 5am.

Note: The clock will automatically search for the time signal everyday at 1:00, 3:00, 5:00. If it fails to receive the time signal at 3:00, it will search again at 4:00. If it fails again it will search at 5:00. If it fails again it will start automatic signal search at 1:00 in the next day. If the signal is weak and your clock does not set, move your clock to a new location, press the WAVE button once to start the time signal search. To stop the time signal search, press and hold the WAVE button for 2 seconds.

Interruption to the MSF signal

The Anthorn transmitter is periodically shut down for scheduled maintenance resulting in no signal being transmitted. For dates of the schedule maintenance visit: www.npl.co.uk/server.php?show=ConWebDoc_1001 or call the NPL MSF recorded message on 0200 8943 6493.

MAINTENANCE

Replace the battery/ies annually even if the product is still running.
 Remove the battery/ies if the clock is stored or not in use.
 A soft cloth may be used to clean your clock.
 Do not use any abrasive cleaners or chemical solutions on the clock.
