an account as possible in a valuable work featuring many previously unpublished photographs Kilduff is not the first to conduct such an inquiry into Bishop s claim of 72 victories but his book is by far the best researched expertly laid out with photos of the aircraft mentioned by Bishop particularly the German types Kilduff has done a marvelous and subtle job of showing how a real hero became larger than life Aviation History Handbook of American Private Schools ,1927 This handbook aims to be a guide to the best private schools of the country It has been undertaken with the parent especially in mind but it is hoped that it may be of value to school and college authorities and all others interested in the subject It is believed that this Handbook is the first volume which attempts a critical and discriminating treatment of the private schools of the country It is an endeavor to classify the schools on their merits at least a step it is hoped toward eventual standardization Editor s foreword New Handbook of the Churches ,1952
