

How To Study Accounting

1. Make a study list patterned after the syllabus.
2. It's crucial that you know the concepts before answering problems. All problems are based on theories.
3. If you know the *why* behind it, you'll more or less have an idea how to solve it no matter how they twist the problem.
4. Answer as many problems as you can, but choose your problems wisely.
5. Note all the confusing topics.
6. Mindset: Study as if each exam is the board exam!
