ArcheoLogica Data, 3, 2023, 2023-01-31. ArcheoLogica Data wants to reach an Italian and international audience of scholars, professionals, students, and more generally early career archaeologists, and it accepts contributions written both in Italian and English. ArcheoLogica Data proposes to indissolubly associate data and interpretation. It embraces that global idea of archaeological data that integrates all the discipline's declinations without any thematic or chronological constraints. Data is at the centre and around it lies everything that can stem from it: interpretations, hypotheses, reconstructions, applications, theoretical and methodological reflections, critical ideas, constructive discussions.
