Tamburro, Neal J. Thomas, 2012-04-10 This is the first comprehensive study guide covering all aspects of pediatric critical care medicine. It fills a void that exists in learning resources currently available to pediatric critical care practitioners. The major textbooks are excellent references but do not allow concise reading on specific topics and are not intended to act as both text and study guide. There are also several handbooks available but these are usually written for general pediatric residents and lack the advanced physiology and pathophysiology required for the higher level pediatric critical care practitioner. *Study Guide for Memmler's The Human Body in Health and Disease, Enhanced Edition* Kerry L. Hull, Barbara Janson Cohen, 2020-05-15 Help your students maximize their study time, improve their performance on exams, and succeed in the course with this updated Study Guide to accompany Memmler's The Human Body in Health and Disease Fourteenth Edition. The questions in this edition have been fully updated and revised to reflect the changes within the main text, and the labeling and coloring exercises are taken from the illustrations designed for the book. Filled with empowering self-study tools and learning activities for every learning style, this practical Study Guide follows the organization of the main text, chapter by chapter, helping students every step of the way toward content mastery. The variety of learning activities, with three main components, are designed to facilitate student learning of all aspects of anatomy, physiology, and the effects of disease, not merely to test knowledge.
