GOAL

Use properties of radicals to simplify radicals and use quadratic equations to model real-life problems

VOCABULARY**Product Property** The square root of a product equals the product of the square roots of the factors.

$$\sqrt{ab} = \sqrt{a} \cdot \sqrt{b} \text{ when } a \text{ and } b \text{ are positive numbers}$$

Quotient Property The square root of a quotient equals the quotient of the square roots of the numerator and denominator.

$$\sqrt{\frac{a}{b}} = \frac{\sqrt{a}}{\sqrt{b}} \text{ when } a \text{ and } b \text{ are positive numbers}$$

An expression with radicals is in **simplest form** if the following are true:

- No perfect square factors other than 1 are in the radicand.
- No fractions are in the radicand.
- No radicals appear in the denominator of a fraction.

EXAMPLE 1**Simplifying with the Product Property**Simplify the expression $\sqrt{147}$.**SOLUTION**

You can use the product property to simplify a radical by removing perfect square factors from the radicand.

$$\begin{aligned} \sqrt{147} &= \sqrt{49 \cdot 3} && \text{Factor using perfect square factor.} \\ &= \sqrt{49} \cdot \sqrt{3} && \text{Use product property.} \\ &= 7\sqrt{3} && \text{Simplify.} \end{aligned}$$

Exercises for Example 1

Simplify the expression.

1. $\sqrt{98}$

2. $\sqrt{52}$

3. $\sqrt{300}$

4. $\sqrt{99}$

Philip Barnes,2014-02-05 In this thoughtful and provocative book Philip Barnes challenges religious educators to re think their field and proposes a new post liberal model of religious education to help them do so His model both confronts prejudice and intolerance and also allows the voices of different religions to be heard and critically explored While *Education Religion and Diversity* is directed to a British audience the issues it raises and the alternative it proposes are important for those educators in the United States who believe that the public schools have an important role in teaching students about religion Walter Feinberg Professor Emeritus of Education Policy Organization and Leadership at the University of Illinois Urbana Champaign Philip Barnes offers a penetrating and lucid analysis of the strengths and weaknesses of modern religious education in Britain He considers a range of epistemological and methodological issues and identifies two contrasting models of religious education that have been influential what he calls a liberal and a postmodern model After a detailed review and criticism of both he outlines his own new post liberal model of religious education one that is compatible with both confessional and non confessional forms of religious education yet takes religious diversity and religious truth claims seriously Essential reading for all religious educators and those concerned with the role of religion in schools Bernd Schr der Professor of Practical Theology and Religious Education University of G ttingen What place if any does religious education have in the schools of an increasingly diverse society This lucid and authoritative book makes an incisive contribution to this crucial debate Roger Trigg is Emeritus Professor of Philosophy University of Warwick and Senior Research Fellow Ian Ramsey Centre Oxford The challenge of diversity is central to education in modern liberal democratic

states and religious education is often the point where these differences become both most acute and where it is believed of all curriculum subjects resolutions are most likely to be found Education Religion and Diversity identifies and explores the commitments and convictions that have guided post confessional religious education and concludes controversially that the subject as currently theorised and practised is incapable of challenging religious intolerance and of developing respectful relationships between people from different communities and groups within society It is argued that despite the rhetoric of success which religious education is obliged to rehearse in order to perpetuate its status in the curriculum and to ensure political support a fundamentally new model of religious education is required to meet the challenge of diversity to education and to society A new framework for religious education is developed which offers the potential for the subject to make a genuine contribution to the creation of a responsible respectful society Education Religion and Diversity is a wide ranging provocative exploration of religious education in modern liberal democracies It is essential reading for those concerned with the role of religion in education and for religious and theological educators who want to think critically about the aims and character of religious education
